The following clarifications are applicable to drawings and specifications for the project referenced above.

Item 1: RFI

Question: Do the front entrance and associated rooms under the sloped glazing system (ie., Vestibule 130, Reception 128, Waiting 127, and Lobby 129) need to remain operational during the performance of the sloped glazing system replacement and construction of the new entry canopy or can the side door by exist passage 119 be used as a temporary entrance/exit during performance of this work?

Answers:

The building to be occupied by agency, access maintained and safety is to be provided during normal working hours, see section 01 11 00 in the project manual. The GC will provide a site logistics plan which will include covered access and egress as well as necessary occupant protection. The GC can discuss the use of other access points with the building manager and have it reviewed by OSBM/OSF for compliance during the pre-construction meeting.
