Farmington, CT 06032

hereinafter called the Consultant;

WITNESSETH, that the State and the Consultant, in consideration of the mutual covenants, terms and conditions herein contained, do hereby agree as follows:

1. The Consultant shall provide services for the project in accordance with the "Terms and Conditions of Contract between the State and the Hazardous Materials Abatement Design Consultant" dated January 17, 1998, and last revised September 17, 2014, which document is attached hereto as Attachment 1 and made a part hereof.
2. The services required of the Consultant under this contract are of an indefinite quantity, and a time period for each specific task will be specified in a work statement set forth in a Letter of Authorization issued by the DCS Project Manager.
3. The total amount due the Consultant under this contract shall not exceed **Five Hundred Thousand Dollars (\$500,000.00)**. The Consultant shall be entitled to a payment of Ten Dollars (\$10.00) at the termination of this contract if at such time the Consultant had not received any fee under this contract.
4. This contract shall commence with the date this contract was entered into and shall expire on **May 30, 2017**. No new projects may be assigned on or after the expiration date, but all projects assigned prior to the expiration date will be allowed to continue to completion with all the terms and conditions of this contract herein set forth remaining in full force and effect. The term of this contract may be extended in writing by the Commissioner.
5. *For the services and deliverables specified in a work statement set forth in a Letter of Authorization, the Consultant shall be paid a fee based on the classification and hourly rate of personnel as shown in Exhibit A entitled "Hourly and Task Schedule." Said Exhibit A is attached hereto and made a part hereof. In addition to providing the hours of services and fee of any particular employee on any particular job, the Consultant shall make available upon request appropriate information to verify the actual burden, fringe, and overhead rates. The State reserves the right to audit these data.*
6. The Letter of Authorization will reference a DCS project number and a maximum cost for a project. The cost will be based on an estimate of the scope of work and duration of the project as determined by the Consultant and the DCS Project Manager. This cost shall not be exceeded unless there are extenuating circumstances which were not initially known, and then only with the approval in writing of the DCS Project Manager; otherwise, any additional services necessary to complete the scope of work as agreed to in the Letter of Authorization shall be performed by the Consultant at no increase in cost.

7. Additional direct costs will be allowed as noted in each individual work statement set forth in a Letter of Authorization, but in no instance shall they exceed the limits set forth below:

a. Direct Expenses: The State will pay for the following direct expenses:

1. Vehicle travel to and from the established place of business and the project site: maximum rate is established per the State Travel Regulations.
2. Project related long distance telephone calls, parking, etc., at the actual costs.

b. Miscellaneous Outside Services: The State will pay for outside services such as photography, reproduction, etc., at actual cost plus a 10% markup.

c. The State will pay for fees charged by the Department of Public Health for any application for alternative work practice procedures.

If any claims are paid against its professional services liability insurance policy, the Consultant agrees to purchase additional insurance in order to maintain the minimum coverage of \$1,000,000.00 each occurrence and per aggregate. The insurance shall remain in effect during the entire duration of this contract and for eight years after substantial completion of the project. For policies written on a "Claims Made" basis, the Consultant agrees to maintain a retroactive date prior to or equal to the effective date of the contract. The Consultant's policy shall provide that it shall indemnify and save harmless the State and its officers, agents and employees from claims, suits, actions, damages and costs of every name and description resulting from negligence and errors and omissions in the work performed by the Consultant under the terms of this contract.

Each of the policies for such kinds of insurance mentioned above shall be issued by an insurance company or companies satisfactory to the DCS and shall contain a provision that coverages will not be changed, cancelled or non-renewed until at least sixty (60) calendar days' prior written notice has been given to the DCS. Each insurance policy shall state that the insurance company agrees to investigate and defend the insured against all claims for damages to the extent that all alleged damages might be covered by insurance. Such insurance policies shall name the State as an additional insured, except that the State shall not be named as an additional insured with respect to the coverage for the statutory workers' compensation, automobile liability, and employer's liability

insurance and to the coverage for professional liability insurance. Certificates of insurance showing such coverages as required in this section shall be filed with the DCS prior to the time this contract is executed on behalf of the State.

9. If for reasons of incomplete scope, complexity, etc., a fixed fee cannot be determined by the Commissioner, the State shall compensate the Consultant for services rendered under this contract on the basis of pre-approved hourly rates for the personnel assigned to perform the services. The hourly rates shall be determined in accordance with the provisions set forth in the Office of Policy and Management General Letter No. 97-1 dated November 21, 1996, which letter is incorporated herein by reference and made a part hereof as though fully set forth herein. Notwithstanding the preceding sentence, an hourly rate shall not exceed a reasonable rate, as determined by the Commissioner, taking into consideration the skills and experience of the person providing the services. When hourly rates are applicable, the State shall be responsible for payment for overhead and profit, as set forth in OPM General Letter 97-1. Hourly rate payments shall be made in accordance with the terms and conditions of each task letter. Monthly requests for payment shall be submitted on properly prepared invoice forms with attachments showing actual hours worked, hourly rates applied, and any allowable additional direct costs included in the statement. The Consultant shall certify that each amount invoiced is both accurate and commensurate with the work performed for the State under this contract. The State reserves the right to periodically audit the Consultant's financial records. It is specifically understood that these hourly rate payments shall only apply for the period of time that the person is actually employed on projects assigned under this contract.
10. Requests for payment shall be made on properly prepared invoice forms with attachments showing actual hours worked, hourly rates as listed in Exhibit A, and any allowable additional direct costs included in the work statement. All requests for payment must be approved by the DCS Project Manager and, unless otherwise provided, payments shall be made as follows:
 - a. Design - Monthly payments substantiated by a breakdown of hours spent, by employee classification, and any allowable additional direct costs. For design projects of less than one month duration, one payment upon submission of the original working drawings and specifications.
 - b. Construction Administration and Design Reviews - Monthly payments substantiated by a breakdown of hours spent, by employee classification, and any allowable special additional direct costs. For projects of less than one month duration, one payment upon submission of all final documents.
 - c. Air Sampling - Monthly payments based on number of samples taken or upon completion of task.
11. The Consultant shall appoint a program manager to serve as a single point of contact and liaison between the Consultant and the DCS Project Manager for all work required under the contract. Upon both parties hereto signing the contract, the Consultant will immediately advise the DCS Project Manager in writing the name of the individual so designated.
12. Whenever requested by the DCS Project Manager, his/her representative, or the Consultant, periodic meetings will be held to discuss questions and problems relating to the work requested under this contract. The Consultant and/or its appropriate representative(s) shall attend and participate in all design meetings and conferences.
13. Unless otherwise directed by the State, the Consultant shall take minutes and provide a record of all conferences, meetings, discussions, and/or directives, participated in by the Consultant and/or its representative(s) on matters relevant to the scope of work. These minutes will be identified by project numbers and numbered sequentially and will fully identify the participating personnel, subject discussed, action items, data due, and conclusions reached. The Consultant shall forward to the DCS Project Manager a copy of said minutes within five work days after the conference, meeting, discussion, and/or directives.
14. No prior stipulation, agreement or understanding, verbal or otherwise, of the parties hereto, their agents or legal representatives, shall be valid or enforceable unless embodied in the provisions of this contract.
15. The Consultant agrees to become familiar with and follow the DCS provisions set forth in the "DEPARTMENT OF PUBLIC WORKS CONSULTANTS PROCEDURE MANUAL," which may be amended and/or

supplemented current with the date of this contract. These guidelines and provisions are incorporated herein by reference and shall be as binding upon the parties to this contract as though fully set forth herein.

16. **Forum and Choice of Law.** The parties deem the contract to have been made in the City of Hartford, State of Connecticut. Both parties agree that it is fair and reasonable for the validity and construction of the contract to be, and it shall be, governed by the laws and court decisions of the State of Connecticut, without giving effect to its principles of conflicts of laws. To the extent that any immunities provided by Federal law or the laws of the State of Connecticut do not bar an action against the State, and to the extent that these courts are courts of competent jurisdiction, for the purpose of venue, the complaint shall be made returnable to the Judicial District of Hartford only or shall be brought in the United States District Court for the District of Connecticut only, and shall not be transferred to any other court, provided, however, that nothing here constitutes a waiver or compromise of the sovereign immunity of the State of Connecticut. The Consultant waives any objection which it may now have or will have to the laying of venue of any Claims in any forum and further irrevocably submits to such jurisdiction in any suit, action or proceeding.
17. As provided in Connecticut General Statutes Section 4b-23(i), it is essential for the Consultant contracting with the Department of Administrative Services, Division of Construction Services, to understand that the approval of the State Properties Review Board must be granted before the Consultant's task can begin. By providing service without a properly executed task letter under this contract, the Consultant accepts the risk that payment will not be made by the State of Connecticut.
18. This contract shall become effective when it is approved as to form by the Attorney General of the State of Connecticut, the Deputy Attorney General of the State of Connecticut, or an Associate Attorney General of the State of Connecticut.

IN WITNESS WHEREOF, the State, acting herein by its Commissioner of the Department of Administrative Services, Division of Construction Services, and the Consultant have executed this contract.

TERMS AND CONDITIONS OF CONTRACT
BETWEEN THE STATE AND THE HAZARDOUS MATERIALS ABATEMENT
DESIGN CONSULTANT

I. CONSULTANT'S SERVICES

A. The Consultant agrees to prepare and furnish documents as set forth in Article III herein covering the following:

1. The Consultant shall develop programs for the removal and/or enclosure and/or encapsulation of hazardous materials from individual buildings. "Hazardous Materials" shall mean any and all materials, chemicals, or other substances that are hazardous or toxic or otherwise regulated or controlled pursuant to any of the Environmental Laws. "Environmental Laws" shall mean any federal, state, or local statute, law, ordinance, code, rule, regulation, order, permit, or decree regulating or relating to the protection of human health or the environment, or imposing liability or standards of conduct concerning any hazardous, toxic, or waste substance, element, compound, mixture or material, as now or at any time hereafter in effect, including, without limitation, the Comprehensive Environmental Response, Compensation and Liability Act ("CERCLA"), as amended, 42 U.S.C. § 9601 et seq.; the Emergency Planning and Right To Know Act, 42 U.S.C. § 11101 et seq.; the Endangered Species Act, 16 U.S.C. § 1531 et seq.; the Lead-Based Paint Exposure Reduction Act, 15 U.S.C. § 2681 et seq.; the Oil Pollution Act of 1990, 33 U.S.C. § 2701 et seq.; the Toxic Substances Control Act, 15 U.S.C. § 2601 et seq.; the Solid Waste Disposal Act (including the Resource Conservation and Recovery Act) 42 U.S.C. § 6901 et seq.; the Hazardous Material Transportation Act, 49 U.S.C. § 1801 et seq.; the Superfund Amendments and Reauthorization Act, 42 U.S.C. § 9601 et seq.; Clean Air Act, 42 U.S.C. § 7401 et seq.; the Water Pollution Control Act, 33 U.S.C. § 1251 et seq.; the River and Harbors Act of 1899, 33 U.S.C. § 401 et seq.; and all rules and regulations of the U.S. Environmental Protection Agency (EPA), or any other federal, state, or local department, board, or agency, or any other agency or governmental board or entity having jurisdiction over environmental or health and safety matters, as such may have been amended. The services may include the preparation of reports, plans, specifications, and cost estimates for various State owned buildings, as well as program administration, inspections, assessments, analytical laboratory sample analysis, report preparation, preparation of contract documents, consultations during construction, and monitoring of contractors. The Consultant shall, in addition, provide drawings and specifications for the restoration of each building to current codes if required by DCS. Other services which the Consultant may be requested to provide include air monitoring and sampling, construction administration and inspection, and the review of design activities performed by others.

When requested by task letter, the Consultant shall develop programs for the replacement of asbestos with non-hazardous materials of like qualities of fire or thermal resistance or acoustical properties, as deemed necessary by sound practice and current State Building Code requirements,

2. For some task letters, the basis for the requirement for the services will be building inspection reports, such as asbestos inspection reports, which will have previously been prepared for the State by firms competent in this field and under contract to inspect buildings over 2,500 square feet in floor area. For lead abatement services the Consultant will be required to conduct a lead inspection survey to determine the presence of toxic levels of lead. Services will include the development of abatement strategies necessary to reduce the hazard.

3. In preparing an asbestos abatement program, the Consultant will utilize the document entitled "State of Connecticut Standard Specification Asbestos Abatement" dated April 6, 1987, and revised January 1991, September 1997 and prepared by Asbestos Management, Department of Administrative Services, Division of Construction Services. Departure from this document, if required, will be considered in the final review of the abatement program.
 4. An abatement program will include detailed scheduling of events and the coordination of those events with the affected agency to enable a smooth completion of the intended effort with a minimum disturbance to normal use of a building. If it is necessary to vacate a building during the abatement process, plans for vacating shall be coordinated with, and approved by, the affected agency.
 5. During the asbestos/lead abatement stage or for other hazardous materials abatement, as necessary, the Consultant will be required to provide the services of an air sampling professional to represent the State. If the construction contractor is found to be in violation of his contract, the air sampling professional shall notify the DCS Construction Specialist or the agency, whichever is designated by the State as responsible. The air sampling professional will, in this capacity, also participate in the briefing of the construction contractor before the start of the construction work.
- B. The Consultant agrees to follow the DCS written guidelines (Consultants Procedure Manual as referenced in Section 15 of the basic contract) established at the initial meeting. These guidelines are incorporated herein by reference and shall be as binding upon the parties to the contract as though fully set forth herein. The Consultant shall also provide services in accordance with the Regulations of Connecticut State Agencies.
- C. The Consultant will consult with the State to ascertain requirements of the project and consult with proper State authorities and inform himself as to specific institutional conditions that might affect the design of the contemplated work or the hours or season of its execution, such as type of occupants, use of adjacent areas, interruptions of institutional routine, and/or other factors related to the particular project. The drawings and specifications will reflect consideration of those factors requiring safeguards and precautionary measures in excess of usual practice.
- D. The State will not indemnify nor hold the Consultant harmless from third party claims, suits, or actions.
- E. The Consultant covenants and agrees that it will perform its services under this contract in accordance with the standard practices of its profession.
- F. Indemnification.

The Consultant shall indemnify and hold harmless the State and its officers, representatives, agents, servants, employees, successors and assigns from and against any and all (1) Claims arising directly or indirectly in connection with the contract, concerning the negligent acts of commission or omission (collectively, the "Acts") of the Consultant or Consultant Parties, and (2) liabilities, damages, losses, costs and expenses, including but not limited to attorneys' and other professionals' fees, arising directly or indirectly in connection with Claims, Acts or the contract, to the extent of the Consultant's or Consultant Parties' negligence. The Consultant's obligations under this section to indemnify and hold harmless against Claims includes Claims concerning confidentiality of any part of or all of the Consultant's bid, proposal or any Records, any intellectual property rights, other proprietary rights of any person or entity, copyrighted or uncopyrighted compositions, secret processes, patented or unpatented inventions, articles or appliances furnished or used in the performance.

II. PAYMENT OF CONSULTANT'S FEES:

- A. The State agrees to pay the Consultant for services herein described an amount based on hours of service and hourly rates as set forth in Exhibit A.
- B. Payments will be made in accordance with the provisions set forth in Section 10 of this contract. All invoices for payment must include the project number as specified by the Letter of Authorization and be approved by the DCS Project Manager.

III. SPECIFIC DOCUMENTS TO BE FURNISHED BY THE CONSULTANT WHEN AUTHORIZED

A. Preliminary Study:

Pursuant to conferences with the State, a survey, a study, or a concept plan shall be prepared by the Consultant to determine the general scope of a project. These studies may consist of sketches, small scale drawings, and outline specifications, or other documents as necessary.

Concurrently with the preliminary study the Consultant shall determine from competent authority any factors in conflict with the project as proposed, such as neighboring building lines, zoning regulations, sanitary codes, health and fire laws, local ordinances, and/or any other germane laws, regulations or procedures, and shall report his findings thereon to the State when submitting preliminary drawings and specifications.

B. Drawings and Specifications:

These drawings shall show the general disposition of the principal features and equipment embodied in the project, and shall be sufficiently developed so as to fix and illustrate the size and character of a project in all of its essential basic particulars as to kinds of materials, types of structure, and mechanical and electrical systems. An estimate of the cost of implementation predicated on these drawings and specifications shall accompany the same, broken down into the major sub-trades for the implementation of the project, with separate figures for special items such as equipment, site work, and utility lines. Basic engineering and other designs and specifications shall also be provided at this time by the engineers and other consultants working under the direction of the Consultant.

As these drawings are the basis of the whole concept of the project, they shall be reviewed by the State or its representative for conformance to functional and technical requirements of the project and be approved by the State or its representative before the Consultant proceeds further.

Should the Consultant develop drawings for the tasks under this contract, then the Consultant shall use computer aided drafting software fully compatible with an AutoCAD version as approved in writing by the Department of Administrative Services, Division of Construction Services. After the documents to be provided are approved by the Department of Administrative Services, Division of Construction Services, and at a time specified by the Department of Administrative Services, Division of Construction Services, the Consultant shall submit an electronic copy of all drawings in a format approved by DCS. Upon completion of construction of the project, the Consultant shall submit a revised electronic copy utilizing the most recently recognized format of the National CAD Standard basic format to reflect as-built conditions. All AutoCAD documentation related to a project shall be of a single media type. All the work called for in this paragraph shall be provided by the Consultant at no additional cost to the State.

C. Summary Report

The summary report, also known as a compliance report, shall be submitted at the conclusion of construction work and shall contain, but not be limited to, the following records and information:

1. Summary of the entire project
2. Records of all air sampling and clearance tests, certificates of visual inspections, the abatement contractor's personal sampling results, chain of custody, and medical and training certificates
3. Logs of all activities such as daily attendance, containment area sign in/out sheets
4. Copies of all submittals such as EPA/DEP notifications, alternative work practices, progress reports, meeting notes, re-insulation information, equipment information

7. Waste disposal manifests

IV. CONSULTANT'S DUTIES DURING CONSTRUCTION ADMINISTRATION WHEN AUTHORIZED

- A. The Consultant shall, as part of the services to be rendered, include as much of his personal services and the services of his employees and consultants as the State deems necessary for the well-being of a project and efficient implementation of the construction work, but shall not be responsible for continuous on-site inspection of the work, except for air monitoring when required. If the Consultant fails to perform the duties in a conscientious and reasonable manner, the State may exercise its right to terminate the contract as hereinafter provided in Article VI.

- B. Additionally, it is understood and agreed to by the Consultant and the State that the duties of the Consultant shall include, but not be limited to, the following services:

The Consultant shall:

1. Observe the progress of construction so as to determine when there appear to be any defects, deficiencies, or deviations from the drawings and specifications in the work of the construction contractor, including all variations from the materials specified and the methods of construction authorized.
2. Attend job meetings as required, at which the construction contractor will report, and make recommendations relative to the progress of the work based upon visitations to the site and inspections of same, and submit semi-monthly inspection reports in such form as directed by the State on the fifteenth and last day of each month.
3. Examine submittals and furnish recommendations to the State concerning material and equipment, and review and report on the construction contractor's proposals in connection with changes in the construction contract. These services are to be performed promptly so as not to entail delay in the work.
4. Check and certify partial payment requisitions submitted by the construction contractor.
5. Review and comment on shop drawings submitted for review. This service is to be performed with diligence and promptness so that the construction work will not be delayed.
6. Record on the original final tracings all changes made during the period of construction, as indicated on the construction contractor's marked-up record drawings, and provide reproducible mylars to the State that reflect such changes. The mylars shall become the property of the State.
7. Fully cooperate with the State's representatives during the progress of the construction work.

V. SUSPENSION OF THE WORK

- A. The State, at any time, may suspend all or any part of the services of the Consultant. In such event, the Consultant shall be given three (3) days' notice of such suspension in writing by registered or certified mail to the Consultant's address as given for correspondence purposes. The mailing of such notice shall preclude any claim on the part of the Consultant as to failure to receive notice of such suspension.
- B. In the event of suspension by the State as noted above, the Consultant shall be entitled to compensation as the Commissioner shall determine to be reasonable.
- C. Should the State reactivate any assigned work covered by this contract, in whole or in part, within one year from the time the work was suspended, any fees paid to the Consultant in regard to the work shall be applied as payment on the fees for the work as set forth in the contract at the time of reactivation. Should reactivation occur after a period of suspension exceeding one (1) year, the Consultant and the State may renegotiate the fees for the work based upon current conditions or either may unilaterally elect to terminate the remaining work.
- D. In the event the State decides to suspend any work under this contract, the State shall become entitled, after payment of outstanding fees, to all finished and unfinished documents prepared pursuant to this contract.
- E. If the Consultant should be unwilling or unable to perform the services required by this contract at the time the State desires to reactivate such services after a period of suspension, then all finished or unfinished documents prepared pursuant to this contract shall become the property of the State and the State shall have the right to immediate possession and use thereof.

VI. TERMINATION OF AGREEMENT

- A. Notwithstanding any provisions or language in this contract to the contrary, the Commissioner may terminate the contract whenever he determines in his sole discretion that such termination is in the best interest of the State. Any such termination shall be effective by delivery to the Consultant of a written notice of termination. The notice of termination shall be sent by registered or certified mail to the Consultant's address as furnished to the State for purposes of correspondence, or by hand delivery. Upon receipt of such notice, the Consultant

shall (a) immediately discontinue all services affected (unless the notice directs otherwise), and (b) deliver to the State all data, drawings, specifications, reports, estimates, summaries, and such other information and materials as may have been accumulated by the Consultant in performing his duties under this contract, whether completed or in progress. All said documents, information, and materials shall become the property of the State.

- B. If the termination is for the convenience of the State, the Consultant shall be entitled to receive reasonable compensation for services already satisfactorily performed and accepted, but no amount shall be allowed for anticipated profit on unperformed services. The Commissioner shall determine the amount of such compensation.
- C. If the termination is due to the failure of the Consultant to fulfill his contract obligations, the State may take over the work and prosecute the same to completion by contract or otherwise. In such case, the Consultant shall be liable to the State for any additional cost occasioned to the State thereby.
- D. If after notice of termination for failure of the Consultant to fulfill his contract obligations it is determined that the Consultant had not so failed, the termination shall be deemed to have been effected for the convenience of the State. In such event, the Consultant shall be entitled to reasonable compensation as provided in Section B of this article.
- E. The rights and remedies of the parties provided in this article are in addition to any other rights and remedies provided by law or under this contract.
- F. If the Consultant is a sole proprietor and the Consultant should die during the term of this contract, the contract shall be considered to be terminated. In the event of such termination, the Consultant's estate shall be entitled to a reasonable payment for any uncompensated work performed to the date of death, and the State shall have title to, and shall have the right to immediate use and possession of, all finished and unfinished documents prepared under the contract.
