Any such termination shall be effected by delivery to the Construction Administrator of a written notice of termination.
- B. The notice of termination shall be sent by registered or certified mail or by hand delivery to the Construction Administrator's address as furnished to the State for purposes of correspondence. Upon receipt of such notice, the Construction Administrator shall both immediately discontinue all services affected (unless the notice directs otherwise) and deliver to the State all data, drawings, correspondence, specifications, reports, estimates, summaries, and such other information and materials as may have been accumulated by the Construction Administrator in performing its duties under this contract, whether completed or in progress. All such documents, information, and materials shall become the property of the State.

If the termination is for the convenience of the State, the Construction Administrator shall be entitled to receive reasonable compensation for services already satisfactorily performed and accepted, but no amount shall be allowed for anticipated profit on unperformed services. The Commissioner shall determine the amount of such compensation.
- D. If the termination is for reason of failure of the Construction Administrator to fulfill its contract obligations, the State may take over the work and prosecute the same to completion by contract or otherwise. In such event, the Construction Administrator shall be liable to the State for any additional costs occasioned to the State thereby.
- E. If after notice of termination for failure of the Construction Administrator to fulfill its contract obligations it is determined that the Construction Administrator had not so failed, the termination shall be deemed to have been effected for the convenience of the State. ## EXHIBIT A

**Renovations to Physical Plant  
Naugatuck Valley Community College  
Waterbury, CT  
Project No. BI-CTC-500**

### I. PROJECT DESCRIPTION

The scope of work is based on a Study prepared by BVH Integrated Services, P.C., dated May 26, 2016, which includes eliminating the High Temperature Hot Water (HTHW) plant and absorption chillers and replacement with high efficiency condensing hot water boilers and electric chillers. The scope of work consists of keeping the cooling systems centralized in the Physical Plant building with at least two (2) new electric chillers and multiple, variable speed pumping systems to serve all of the campus buildings currently cooled through the existing absorption chillers. The new heating systems will decentralize by installing two (2) sets of multiple condensing boilers and variable speed pumping systems. One (1) of the condensing boilers will be installed in the existing Physical Plant Building to serve the Kinney, Fine Arts, Student Center, and Learning Resource Center Buildings. The second condensing boiler will be installed in the existing Ekstrom Hall mechanical room off the parking garage to serve Ekstrom Hall and Technology Hall.

### II. CONSTRUCTION ADMINISTRATOR'S SCOPE OF PROFESSIONAL SERVICES

The Construction Administrator shall provide design phase services, which will include the schematic design, design development, contract documents, and bidding phases. The Construction Administrator shall provide construction phase services. Each phase will commence when written notice to proceed is issued by the Department of Administrative Services, Division of Construction Services (DCS). The Construction Administrator shall provide the services within the time periods specified herein or, at the option of the DCS, within extended periods as determined by the Department if the Department is of the opinion that extensions are warranted and if the Department evidences its consent to such extensions in writing. The Construction Administrator shall not commence any phase work under the contract until the Construction Administrator receives written authorization to proceed from the DCS Project Manager.

If the Construction Administrator observes that the scope of work, construction cost, or any other relevant documentation is at variance with the requirements of the project, the Construction Administrator shall promptly notify in writing the architect and the State.

The Construction Administrator shall provide personnel with the qualifications and experience necessary to perform the various tasks herein described. The DCS shall be the sole judge of the qualifications of assigned personnel, and shall have the right to approve and reject personnel, and have removed any personnel it considers unsatisfactory.

#### **PMWeb Project Management Requirements**

DAS/DCS projects utilize "PMWeb" project management (PMWEB.com) software as their project management and recording system. PMWeb Project Management Requirements for the CA are as follows:

- a. The CA will be provided with a license or licenses to access the software. The CA is required to utilize PMWeb for project specific documentation as directed by the DAS Project Manager.

- b. All documents not created in PMWeb shall be scanned, uploaded and maintained by the CA in the PMWeb Document Management System for this project and linked to the corresponding record in PMWeb.
- c. The above listed requirements apply to all of the CA's sub-consultants. Sub-consultants should attend the PMWeb training as a part of the Project Team.
- d. The CA shall monitor the use of the PMWeb System by the General Contractor.

## **A. SCHEMATIC DESIGN PHASE**

### **1. Master Schedule:**

Following interviews with the user groups and designers, DCS will obtain, organize, monitor, and forward to the Construction Administrator all of the end users and consultants' schedules and Critical Path Method (CPM) tasks for input into the Construction Administrator's master schedule. The Construction Administrator will provide data entry on these tasks and any other tasks the Construction Administrator deems appropriate in order to track project progress and verify future milestones.

Utilizing CPM-based software, the Construction Administrator will assign a duration and relationship to each task, add or delete tasks, identify the logic of interrelationships and milestones, and perform schedule management activities to identify the Project's critical path and timeline. Schedule submissions will be coordinated with the architect's design submissions throughout the design process (minimum of 3).

Items to be identified during subsequent refinements include milestones for departmental occupancy, shop drawings and Construction Administrator reviews, special support services, and float times.

### **2. Action Item Agendas:**

The Construction Administrator shall provide the "Action Item Agenda" reports to monitor the significant issues discussed at meetings and having an impact on the Project Schedule or budget, and to track the resultant activity. Typical issues will include, but are not limited to, programming, timetables, information requests by the Project consultants or end users, alternative systems data, unit costs, items to be concluded, etc. The "Action Item Agenda" report will be included with all Project progress meeting reports.

### **3. Document Review Reports:**

The Construction Administrator shall prepare "Document Review" reports for each design phase submittal by the architect.

- a) Schematic Design Phase - 1 submission
- b) Design Development Phase - 1 submission
- c) Contract Document Phase - 1 submission

### **4. Constructability Review and Reporting:**

The Construction Administrator will provide a "Constructability Review" report of the early design documents. The report will be based upon an inspection that will include, but not be limited to, the following:

- a) The campus, to become familiar with on-site conditions.
- b) Proposed mechanical, electrical, and plumbing (MEP) systems overview.
- c) Soil conditions based upon the geo-technical report provided by others.

**5. Preliminary Field Operation Analysis:**

The Construction Administrator will perform the necessary investigation and planning in advance of preparing a plan of preliminary findings for project access strategy during construction. The analysis will be refined in the schematic, design development, and contract documents issue phases. The plan will include, but not be limited to, the review of the following:

- a) Staging of work.
- b) Temporary walks.
- c) Means of egress and fall protection.
- d) Field operation locations.
- e) Temporary field utility usage and feeds.

**6. Construction Cost Estimate:**

Upon review of submitted schematic design documents, the Construction Administrator will prepare and submit to DCS a construction cost estimate. As the design detail advances, the cost estimates will correspondingly reflect greater detail in the qualitative analyses. A current cost data base will be utilized in conjunction with actual quantity takeoffs, knowledge of material and subcontractor availability, manpower and off-hour shift studies, and experience with systems and finishes on similar projects. Input from various trade contractors and vendors will also be sought. The estimates will utilize the standard Construction Specifications Institute (CSI) format. All cost analysis will be representative of inflation to time of construction, scheduled to start mid-2018. **Under no circumstances will the cost of the project exceed the established budget of \$5,134,615.00 for construction and site work without prior written authorization from the DCS.**

**7. Value Engineering/Cost Reduction Alternatives:**

Through the value engineering process, the budgeted \$5,134,615.00 (unless modified in writing by the DCS) construction cost estimate can be concentrated in those areas of the facility that are most important to the owner. The Construction Administrator will identify and recommend alternative materials, products, systems, equipment, or methods that could lead to project cost savings. Impact on schedule and sequencing will be analyzed and reported. The process shall facilitate the selection of building systems by analyzing each system's impact on the Project's budget and schedule and on the long-term operating costs of the Project.

**8. Site Conditions:**

The Construction Administrator will evaluate the impact of known soils, subsurface geology, groundwater, unsuitable material, rocks, topsoil re-use, milled pavement and associated site elements.

**9. Materials Review:**

The Construction Administrator will report on the advisability of materials selections and provide detailed information, including identification and potential availability of long-lead/specialty items, durability, construction methodology, and special sequencing or protection.

**10. Systems Review:**

The Construction Administrator will conduct reviews of proposed roof, structural, mechanical, electrical, plumbing, conveyance, sprinkler, telecommunications, and life safety systems and will consider initial cost, availability, impact on the overall program, comfort and convenience, long-term maintenance and operating costs, and impacts on schedule.

**11. Space Requirements:**

The Construction Administrator will conduct a review of the adequacy of space allotments for maintenance of mechanical, telephone, and fire protection equipment.

**12. Submittals:**

The Construction Administrator shall submit to DCS six (6) copies of a bound report, in 8½-inch by 11-inch format, containing all necessary information, including schedules, reports, analysis, and estimates.

- c) Advanced Field Operation Analysis.
- d) Schedule Refinement.
- e) Budget Refinement.

**2. Value Engineering:**

The Construction Administrator will identify and recommend alternative materials, products, systems, equipment, or methods that could lead to project cost savings. In addition, the Construction Administrator shall analyze furniture, computer, telecommunications, and finish systems not previously available.

**3. Construction Cost Estimate:**

Following issuance of design development documents, the Construction Administrator will prepare and issue construction cost estimates. These estimates will be derived from actual takeoffs, subcontractor and vendor input, and material and labor cost data. All quantitative systems information shall be provided in detail. The estimates will utilize the standard CSI format. The Construction Administrator will immediately notify the DCS Project Manager if and when it becomes apparent the construction budget is exceeding the established budget of \$5,134,615.00 (including inflation through construction) for the building and sitework.

**4. Submittals:**

The Construction Administrator shall submit to DCS six (6) copies of a bound report, in 8½-inch by 11-inch format, containing all necessary information, including schedules, reports, analysis, and estimates.

The equal monthly installment payments can be readjusted to a percentage commensurate with the level of the Construction Administrator's actual improvement of performance of construction phase services. The issue of the Construction Administrator's performance of services shall be determined by the Commissioner.

All payment installments, as adjusted, shall remain in effect until the payments reach 90% of the Construction Phase Sum. An additional 5% of the Construction Phase Sum shall be payable upon (1) completing project closeout as required by the General Conditions and the General Requirements of the Contract for Construction and (2) the receipt of record drawings. The balance of the Construction Phase Sum shall be payable at the discretion of the Commissioner upon DCS's acceptance of the Certification of the Final Application for Payment.

Nothing contained herein shall limit the State's right to suspend or terminate this contract pursuant to Articles VIII and IX of the contract.

### SEXUAL HARASSMENT POLICY STATEMENT

All personnel of the Department of Public Works have the responsibility for maintaining high standards of honesty, integrity, impartiality and conduct to assure proper performance and maintenance of public trust. Sexual harassment violates these standards, especially with regards to principles of equal opportunity, and specific acts of such misconduct will result in the severest of disciplinary action that can be taken.

Acts of sexual harassment are illegal and prohibited by the Civil Rights Act, Title VII as amended and Connecticut General Statutes 46a-60 as a discriminatory practice.

As the Commissioner of the Department of Public Works, I will under no circumstances tolerate any incidents of this type of behavior. Specifically, any supervisors, who use implicit or explicit sexual behavior to control, influence, or affect the career, pay or job of an employee is engaging in sexual harassment. Similarly, any employee who makes deliberate or repeated offensive verbal comments, gestures, or physical contact of a sexual nature in the work environment is also engaging in sexual harassment.

Sexual harassment can include verbal abuse such as sexual insults, lewd or suggestive comments, or unwelcome jokes of a sexual nature. Sexually suggestive objects or sexually explicit posters, calendars, photographs, cartoons, drawings or other explicit materials are inappropriate in a state workplace and can contribute to creating a hostile or offensive work environment.

Individuals who are sexually harassed by supervisors, co-workers, or peers should make it clear that such behavior is offensive. Individuals can file a sexual harassment complaint to the appropriate source(s) for investigation of the matter, so that action can be taken to ensure a work environment free of sexual harassment.

Sexual harassment is totally unacceptable conduct; it undermines the integrity of the employment relationship, debilitates morale, and interferes with the work productivity of the organization.

I shall expect every manager and supervisor to ensure that any instance of sexual harassment is dealt with swiftly, fairly, and effectively. All substantiated complaints will result in the strongest disciplinary action available to the Department.

### SEXUAL HARASSMENT NARRATIVE

Sexual harassment is a particular type of sex discrimination. Like all sexual discrimination, it is illegal. It violates high standards of honesty, integrity, impartiality and conduct required of all sections of the Department of Public Works. It also interferes with and impedes work productivity.

Sexual harassment is defined as "any unwelcome sexual advances or requests for sexual favors or any conduct of a sexual nature when:

1. Submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment;
2. Submission to or rejection of such conduct by any individual is used as the basis for employment decisions affecting such individual; or
3. Such conduct has the purpose or effect of substantially interfering with an individual's work performance or creating an intimidating, hostile or offensive working environment."

You may file a complaint with your supervisor, the Human Resources Office at (860) 713-5304 or Johnette Tolliver, the agency's designated Equal Employment Opportunity Specialist at (860) 713-5394.

Signed by Commissioner Raeanne V. Curtis on May 30, 2008.
