DELIVERY TICKETS

The vendor will furnish printer-type delivery tickets with each fuel delivery. Payment will only be made on gallon information printed on metered tickets. **Partial compartment deliveries, unless made by printer ticket, will not be acceptable.**

DELIVERY ARRANGEMENTS

Arrangements for deliveries will be a matter to be negotiated between each Town or Board of Education and the successful vendor. Inability of a vendor to meet required delivery arrangements may be cause for the rejection of the low bid. Vendors agree to make automatic deliveries based on degree-days. The right is reserved by the Regional Purchasing Cooperative to limit the hours within which deliveries can normally be made. **The successful bid is required to keep all tanks at a minimum of 50% full at all times.**

Restitution will be required should: damage result from freezing (due to a lack of heat) or should a member Town or Board of Education incur additional costs from purchasing heating oil or other fuels from an emergency source. **It should be noted that the awarded vendor shall assume full responsibility for the negligence of any sub-contractor(s) utilized to fulfill any and all obligations under resulting contracts.** If the contractor fails to make proper delivery within the time specified or if the delivery is rejected by a member Town or Board of Education, the member Town or Board of Education may obtain such commodities or any part thereof from other sources in the open market or on contract.
