<b>11</b>	<b>Project Description:</b>
	<p>This Library Annex Project provides for the construction of an annex which will be adjacent and connected to the Elihu Burritt Library. This annex will also be located in close proximity to the Engineering Building. It will include approximately 15,000 GSF of library circulation space, faculty and staff offices, classroom space, laboratory space, and all associated MEP space. This project scope may also include the design and construction of structures to connect adjacent buildings to this annex and to create a new commons space in the existing library.</p> <p>This project will create the additional square footage necessary for the relocation of various staff and faculty members currently housed in the Burritt Library and other areas of the campus. Current classrooms in the library are at full capacity and this annex will continue to support the expanding class schedules and add to laboratory facilities in the library. It will also be structured to meet the current and future needs of the campus by providing appropriate space for library book organization and additional faculty offices and classrooms.</p> <p>This Library Annex Project also includes the installation of HVAC in the library stacks as well as the necessary library upgrades. The stacks currently do not have air conditioning and the University continues to use and expand student functions into these areas. New student study areas and group project rooms are both planned for the stack sections of the library.</p> <p>The annex will provide space for a collaborative environment that will enhance learning and instruction, enable research, and support public service. The building will include space for learning technologies, faculty and staff offices, collaborative work areas, classrooms, a small-scale high performance computing infrastructure, and associated spaces. In following with the sustainability values of CCSU, this facility will be a high performance, sustainable building.</p>
<b>12</b>	<b>Designated Services:</b> <i>[RCSA 4-134e4(a)]</i>
	<p>The following designated services shall be required for this project:</p> <ul style="list-style-type: none"><li>• Schematic Design Phase, Design Development Phase, Construction Documents Phase</li><li>• feasibility, environmental studies;</li><li>• programming;</li><li>• surveys, borings, geotechnical reports, etc.;</li><li>• High Performance Buildings;</li><li>• Building Commissioning (Cx);</li><li>• Interior Design/space planning;</li><li>• participation in budget reconciliation and value engineering with a Construction Administrator</li><li>• Coordinate with the design team of the New Engineering Building</li></ul>
