## **HTHW Manhole #1S Replacement**

Project: **ECSU 2018-11**

### **ADDENDUM NUMBER 1**

Date of Addendum: January 30, 2019

Bids Due: **2:00 P.M. on February 6th, 2019** in the Purchasing Department, Third Floor, Room 344 of the Gelsi-Young Hall (Administration Building along High Street)

The following clarifications are applicable to Construction Drawings and Project Manual for the project referenced above:

#### **Addendum Items:**

- ITEM 1: Bidder's Checklist attached.
- ITEM 2: All weld joints will be visually inspected and approx. 8 joints will be tested using Radiographic method of testing (X-ray) to verify quality of weld joints compliance with ASME Standard B31.1. If any of the joints fails the test, additional radiographic testing will be ordered. Contractor will be responsible for covering cost of retesting of the failed joints. The radiographic testing will be conducted according to ASME 5 and ASME1R.19.
- ITEM 3: MBE requirements: a bidder who is 100% MBE/WBE does not have to subcontract out with another minority vendor to meet the MBE set aside requirements, however they should make a good faith effort with any contractors they may use on the job to use minority subcontractors.
- ITEM 4: One of the manhole's 6" diameter vents shown on the "New Manhole Cross Section" detail on drawing CME-2 shall originate 12" above the floor of the manhole.
- ITEM 5: Specification Division 232113 Hydronic Piping. Add the following sentence to the paragraph 1.4 A "and ASME B 31.1 Power Piping".
