

**TOWN OF TOLLAND
DEPARTMENT OF PUBLIC WORKS**

**REQUEST FOR QUOTE
REPLACEMENT OF CATCH BASIN TOPS**

The Town of Tolland (Owner) is currently seeking quotes for the following project:

The replacement of Owner supplied concrete catch basin tops. Some replacements shall be for the tops only; others may require the rebuilding of part of the structure. Interested qualified bidders shall supply the Town with a line item price for this project. The scope of the project consists of saw cutting and removal of the existing pavement, the removal and replacement of the concrete top at an approved grade, typically 1.0” above the existing binder course, along with any preapproved repairs made to the structure if needed and the replacement and compaction of the base and pavement to match the existing grade. All catch basin tops, concrete blocks and concrete bricks shall be supplied by the Owner. **ALL REBUILDING OF THE ACTUAL STRUCTURE MUST BE PREAPPROVED BY THE TOWN’S OPERATION MANAGER, HIGHWAY SUPERVISOR OR HIS DESIGNEE.** There are approximately ninety five (95) catch basins in need of service located on a variety of roads.. A minimum of one (1) adjustment course of brick must be used prior to replacing the top on repaired structures. All materials other than the catch basin tops, concrete blocks and bricks shall be supplied by the Contractor. Upon being awarded the Contract, the Contractor shall work in a diligent manner to complete this project within thirty (30) working days. All quotes shall be submitted on the enclosed form. A Certificate of Insurance naming the Town of Tolland as an additionally insured along with an Excavation Bond must be presented to the Town of Tolland prior to the start of the project. The Town may reduce the number of structures for budgetary reasons.

Any questions shall be directed to:
