1. Outline of Work

DEEP is in the process of reviewing Dominion Energy Nuclear Connecticut, Inc.'s ("Dominion", "applicant") NPDES renewal application for Millstone Power Station. Millstone is a nuclear-fueled steam-electric power plant located in Waterford, Connecticut. It uses two cooling water intake structures located on Long Island Sound that together withdraw approximately 2.2 billion gallons of water per day for use at the facility. A similar volume of once-through cooling water is discharged each day into Long Island Sound. Millstone's operations make it subject to sections 316(a) (thermal discharges) and 316(b) (cooling water intake structures) of the CWA and the associated regulations at 40 CFR 122.21(r)(1)(ii), and 40 CFR 125, Subparts H and J. As part of the review of the pending NPDES permit application for the facility, DEEP is in need of an independent consultant to provide advice to Department staff concerning the technical matters involved in implementing 316(a) and 316(b) at Millstone. In addition, DEEP would require assistance at meetings or at a hearing, should one be requested. The selected consultant(s) shall work on an as-needed basis, at an hourly rate, and shall agree to provide the necessary consulting services to the Department when called upon to do so by staff in response to a written task request.

- **Purpose** – DEEP is seeking consulting services concerning the technical aspects of implementing 316(a) and 316(b) at Millstone. The advice provided by the selected consultant(s) will allow the Department to process Millstone's pending NPDES renewal application. As it relates to 316(b), the Department must make a site-specific determination as to the best technology available for addressing the adverse environmental impact of the facility's cooling water intake structures. This decision may have implications concerning Millstone's license(s) from the Nuclear Regulatory Commission. The selected consultant(s) will need to review the case file and determine whether the 316(b) information that has been provided by the applicant is accurate and complete. The consultant(s) will then need to advise the Department accordingly. As it relates to 316(a), the Department needs advice as to whether the thermal plume modeling and the related fisheries evaluation that have been performed accurately and completely address all 316(a) matters. To date, Millstone has provided a number of reports to the Department summarizing studies that it has undertaken to address section 316(b), 40 CFR 122.21(r)(1)(ii), and section 316(a). These documents can be accessed in accordance with Section 11 of this RFP.
- **Scope** – The focus of the work to be undertaken involves the technical review and analysis of a number of studies performed by Dominion as part of the requirements under its existing NPDES Permit CT0003263, under 40 CFR 122.21(r)(1)(ii), or at the request of the Department. The review and analysis of the studies by the selected consultant(s) is intended to provide DEEP with the information that it needs to make the necessary statutory/regulatory determinations required to complete the NPDES permit application review. The scope of the project will involve the following:
 - Review and provide advice to DEEP on engineering studies, biological/ecological studies, economic studies, modeling, and other related studies undertaken and/or proposed to be undertaken by Dominion;
 - Review and provide advice to DEEP on draft and final reports submitted by Dominion arising from these studies;
 - Review and provide advice on studies undertaken by interested parties/stakeholders;
 - Review and provide advice on documentation drafted by the Department related to the project;
 - Provide support to DEEP at an administrative hearing.
- **Activities** – The work required will involve providing advice and consulting to the Department in matters related to 316(a) and 316(b) concerning Millstone's pending NPDES permit application. The activities to be performed by the selected consultant(s) will include, but may not be limited to the following:
 - Review reports submitted by Dominion to assess their completeness and technical accuracy as related to the requirements of Dominion's NPDES permit and/or any statutory/regulatory requirements.

- Review reports provided from interested parties/stakeholders concerning the requirements of Dominion's NPDES permit and/or any related statutory/regulatory requirements;
 - Prepare reports or comments summarizing findings and recommendations resulting from the review of the reports/studies from Dominion and/or the interested parties/stakeholders;
 - Consult with and advise DEEP on matters related to the project, including engineering, biological, economic, and other technical matters;
 - Make recommendations to DEEP for obtaining additional services as may be necessary to verify Dominion's or the interested parties'/stakeholders' conclusions and positions and assist DEEP in obtaining such services;
 - Respond to technical questions or comments from Dominion or the interested parties/stakeholders;
 - Respond to technical questions or comments from DEEP;
 - Represent DEEP at meetings related to the project;
 - Assist DEEP as an expert witness in any administrative proceeding in connection with the project.
- **Deliverables** - The consultant(s) will be required to deliver the following:
 - Advice, either verbally or in writing, in response to the Department's request on matters related to the project.
 - Reports and/or written comments summarizing findings and recommendations resulting from the review of the reports/studies. Such reports and comments shall be prepared in a form suitable to be forwarded to Dominion and/or the interested parties/stakeholders;
 - Expert witness testimony in any administrative proceeding in connection with the project. This shall include, but not be limited to, preparing and presenting written and oral expert testimony, including the rendering of expert opinions and conclusions.

Work shall be initiated by issuance of a written task request made by the Department. [See attached example]. The written task request shall contain a detailed description of the task to be achieved, a schedule for completion of the task, and deliverables to be provided.

- **Outcomes** - The review and analysis of the studies performed by the consultant(s) is intended to provide DEEP with the information that it requires to make the necessary statutory/regulatory determinations in order to be able to process Millstone's pending NPDES application.
- **Timeframe** – Several of the documents that require review have already been provided. Several other documents are expected to be generated as a result of additional communication with the applicant and/or its consultants. The review of these documents by the selected consultant(s) will occur through a written task request made by the Department. The task request will summarize the task that the Department requires assistance with; the selected consultant(s) will respond in writing within fourteen days with a proposal that summarizes the manner in which the task will be undertaken, the proposed schedule for completion of the task, and the estimated cost. Any advice required to be produced in writing shall be provided by the consultant(s) in a reasonable timeframe. The overall timeframe to complete the entire project is unknown. The draft permit is not expected to be public noticed until 2021 or 2022. A hearing may be requested during the public notice process. If a hearing occurs, the selected consultant(s) will be required to assist the Department, including acting as an expert witness, if necessary. A hearing, if it should occur, may take place in 2022. Given the uncertainty of the overall duration of the project, the contract will include the maximum possible term of five years to ensure that all permitting and administrative actions associated with the case can be completed.

- E. DEEP may amend or cancel this RFP, prior to the due date and time, if DEEP deems it to be necessary, appropriate or otherwise in the best interests of DEEP. Failure to acknowledge receipt of amendments, in accordance with the instructions contained in the amendments, may result in a proposal not being considered
- F. The Proposer must certify that the personnel identified in its response to this RFP will be the persons actually assigned to the project. Any additions, deletions or changes in personnel assigned to the project must be approved by DEEP or its designee, with the exception of personnel who have terminated employment. Replacements for personnel who have terminated employment are subject to approval by DEEP or its designee. At its discretion, DEEP may require the removal and replacement of any of the Proposer's personnel who do not perform adequately on the project, regardless of whether they were previously approved by DEEP.

- L. The contract will represent the entire agreement between the Proposer and DEEP and will supersede all prior negotiations, representations or agreements, alleged or made, between the parties. DEEP or the State shall assume no liability for payment of services under the terms of the contract until the successful Proposer is notified that the contract has been accepted and approved by DEEP and by the Attorney General's Office. The contract may be amended only by means of a written instrument signed by DEEP, the Proposer, and the Attorney General's Office.

DEEP also reserves the right to waive technical defect, irregularities and omissions if, in its judgment, the best interest of DEEP will be served.

DEEP reserves the right to correct inaccurate awards resulting from its clerical errors. Performance, and remove from State premises, whether leased or owned, all of Contractor's property, equipment, waste material and rubbish related to its Performance, all as the Agency may request.

- (f) For breach or violation of any of the provisions in the section concerning Representations and Warranties, the Agency may Terminate the Contract in accordance with its terms and revoke any consents to assignments given as if the assignments had never been requested or consented to, without liability to the Contractor or Contractor Parties or any third party.
 - (g) Upon Termination of the Contract, all rights and obligations shall be null and void, so that no party shall have any further rights or obligations to any other party, except with respect to the sections which survive Termination. All representations, warranties, agreements and rights of the parties under the Contract shall survive such Termination to the extent not otherwise limited in the Contract and without each one of them having to be specifically mentioned in the Contract.
 - (h) Termination of the Contract pursuant to this section shall not be deemed to be a breach of contract by the Agency.
22. Breach. If either Party breaches the Contract in any respect, the non-breaching Party shall provide written notice of the breach to the breaching Party and afford the breaching Party an opportunity to cure within ten (10) days from the date that the breaching Party receives the notice. In the case of a Contractor breach, any other time period which the Agency sets forth in the notice shall trump the ten (10) days. The right to cure period shall be extended if the non-breaching Party is satisfied that the breaching Party is making a good faith effort to cure but the nature of the breach is such that it cannot be cured within the right to cure period. The notice may include an effective Contract Termination date if the breach is not cured by the stated date and, unless otherwise modified by the non-breaching Party in writing prior to the Termination date; no further action shall be required of any Party to effect the Termination as of the stated date. If the notice does not set forth an effective Contract Termination date; then the non-breaching Party may Terminate the Contract by giving the breaching Party no less than twenty four (24) hours' prior written notice. If the Agency believes that the Contractor has not performed according to the Contract, the Agency may withhold payment in whole or in part pending resolution of the Performance issue, provided that the Agency notifies the Contractor in writing prior to the date that the payment would have been due.
23. Severability. If any term or provision of the Contract or its application to any person, entity or circumstance shall, to any extent, be held to be invalid or unenforceable, the remainder of the Contract or the application of such term or provision shall not be affected as to persons, entities or circumstances other than those as to whom or to which it is held to be invalid or unenforceable. Each remaining term and provision of the Contract shall be valid and enforced to the fullest extent possible by law.
24. Contractor Guarantee. The Contractor shall: perform the Contract in accordance with the specifications and terms and conditions of the Scope of Work, furnish adequate protection from damage for all work and to repair any damage of any kind, for which he or his workmen are responsible, to the premises or equipment, to his own work or to the work of other contractors; pay for all permits, licenses, and fees, and to give all notices and comply with all laws, ordinances, rules and regulations of the city and the State.
25. Forum and Choice of Law. The parties deem the Contract to have been made in the City of Hartford, State of Connecticut. Both parties agree that it is fair and reasonable for the validity and construction of the Contract to be, and it shall be, governed by the laws and court decisions of the State of Connecticut, without giving effect to its principles of conflicts of laws. To the extent that any immunities provided by Federal law or the laws of the State of Connecticut do not bar an action against the State, and to the extent that these courts are courts of competent jurisdiction, for the purpose of venue, the complaint shall be made returnable to the Judicial District of Hartford only or shall be brought in the United States District Court for the District of Connecticut only, and shall not be transferred to any other court, provided, however, that nothing here constitutes a waiver or compromise of the sovereign immunity of the State of Connecticut. The Contractor waives any objection which it may now have or will have to the laying of venue of any Claims in any forum and further irrevocably submits to such jurisdiction in any suit, action or proceeding.
26. Force Majeure. The Parties shall not be excused from their obligation to perform in accordance with the Contract except in the case of Force Majeure events and as otherwise provided for in the Contract. A Force Majeure event materially affects the cost of the Goods or Services or the time schedule for performance and is outside the control nor caused by the Parties. In the case of any such exception, the nonperforming Party shall give immediate written notice to the other, explaining the cause and probable duration of any such nonperformance.
27. Summary of State Ethics Laws. Pursuant to the requirements of section 1-101qq of the Connecticut General Statutes, the summary of State ethics laws developed by the State Ethics Commission pursuant to section 1-81b of the Connecticut General Statutes is incorporated by reference into and made a part of the Contract as if the summary had been fully set forth in the Contract.
28. Disclosure of Records. This Contract may be subject to the provisions of section 1-218 of the Connecticut General Statutes. In accordance with this statute, each contract in excess of two million five hundred thousand dollars between a public agency and a person for the performance of a governmental function shall (a) provide that the public agency is entitled to receive a copy of records and files related to the performance of the governmental function, and (b) indicate that such records and files are subject to FOIA and may be disclosed by the public agency pursuant to FOIA. No request to inspect or copy such records or files shall be valid unless the request is made to the public agency in accordance with FOIA. Any complaint by a person who is denied the right to inspect or copy such records or files shall be brought to the Freedom of Information Commission in accordance with the provisions of sections 1-205 and 1-206 of the Connecticut General Statutes.
29. Confidential Information. The Agency will afford due regard to the Contractor's request for the protection of proprietary or confidential information which the Agency receives. However, all materials associated with the Bid and the Contract are subject to the terms of the Connecticut Freedom of Information Act ("FOIA") and all corresponding rules, regulations and interpretations. In making such a request, the Contractor may not merely state generally that the materials are proprietary or confidential in nature and not, therefore, subject to release to third parties. Those particular sentences, paragraphs, pages or sections that the Contractor believes are exempt from disclosure under the FOIA must be specifically identified as such. Convincing explanation and rationale sufficient

to justify each exemption consistent with the FOIA must accompany the request. The rationale and explanation must be stated in terms of the prospective harm to the competitive position of the Contractor that would result if the identified material were to be released and the reasons why the materials are legally exempt from release pursuant to the FOIA. To the extent that any other provision or part of the Contract, especially including the Bid, the Records and the specifications, conflicts or is in any way inconsistent with this section, this section controls and shall apply and the conflicting provision or part shall not be given effect. If the Contractor indicates that certain documentation is submitted in confidence, by specifically and clearly marking said documentation as CONFIDENTIAL,” the Agency will endeavor to keep said information confidential to the extent permitted by law. The Agency, however, has no obligation to initiate, prosecute or defend any legal proceeding or to seek a protective order or other similar relief to prevent disclosure of any information that is sought pursuant to a FOIA request. The Contractor shall have the burden of establishing the availability of any FOIA exemption in any proceeding where it is an issue. In no event shall the Agency or the State have any liability for the disclosure of any documents or information in its possession which the Agency believes are required to be disclosed pursuant to the FOIA or other requirements of law.

30. Protection of Confidential Information.

If a Confidential Information Breach has occurred, the Contractor shall, within three (3) business days after the notification, present a credit monitoring and protection plan to the Commissioner of Administrative Services, the Agency and the Connecticut Office of the Attorney General, for review and approval. Such credit monitoring or protection plan shall be made available by the Contractor at its own cost and expense to all individuals affected by the Confidential Information Breach. Such credit monitoring or protection plan shall include, but is not limited to reimbursement for the cost of placing and lifting one (1) security freeze per credit file pursuant to Connecticut General Statutes § 36a-701a. The Contract is the entire agreement between the Parties with respect to its subject matter, and supersedes all prior agreements, proposals, offers, counteroffers and understandings of the Parties, whether written or oral. The Contract has been entered into after full investigation, neither Party relying upon any statement or representation by the other unless such statement or representation is specifically embodied in the Contract.

33. Interpretation. The Contract contains numerous references to statutes and regulations.
