

CLARIFICATIONS FOR RFP#19-108 INTERACTIVE TOUCH FLAT PANEL  
SCREENS, PROJECTORS AND INSTALLATION

1- How is the existing USB cable run? Is it solid cable point-to-point? Is it USB transmitter and receiver? Is it proprietary to the Promethean set up?

They go through the walls (faceplates behind PC and behind pro board). NOT solid cable point-to point

2- Other than USB and the new customer provided display port to HDMI cable, will all other cables be removed by facilities when they remove the Promethean boards?

all obsolete exposed cables will be removed by IT dept.

3- Will the vendor be pulling the OFE Display Port to HDMI cable or will Facilities?

IT dept. will run the HDMI/USB cables from PC to Panel and use conduits for cable management.

4- Will there be a face plate termination at the computer station? Or is it a direct run, such as through an open face plate?

NO
