ITEM 8: *Please confirm that the design involves CTDOT and RR coordination, input and review?*

ANSWER: Yes

ITEM 9: *Will there be any geometric improvements to the intersections that would need to be designed?*

ANSWER: There will be no geometric changes to the roadway but sidewalks will be modified for ADA accessibility.

ITEM 10: Could you provide clarification on the consultant's scope of work?

“The consultant will be responsible for compiling available information and recommend traffic signal upgrade from the 2017 Transportation and Parking Study at the above-mentioned intersection”

Does this mean an engineering report of recommendations? Provision of design services to implement recommendations from the 2017 Study? Prepare another study?

ANSWER: Consultant should be familiar with recommendations from the 2017 Transportation and Parking Study which is now attached.
