UConn Health - UCHC4-127870309 Scrub Management Program

UConn Health RFP Section	Supplier Question	UConn Health Response
Scope of Work	Will UCONN allow us to size the staff in advance to create the most efficient inventory mix or would we be using supplied data on size disbursements to create the starting inventories?	UConn Health does not currently "mix" scrub sizes and would prefer to not change the current method of distributing the scrubs.
Scope of Work	I plan on using the following link on the RFP to answer some of the specifics. Let me know if using this link to answer some RFP questions will be ok.	Responses to the Scope of Work must be entered for all information and pricing requested on the UCHC RFP-05 Scope & Response Spreadsheet. If required, any technical or descriptive literature, drawings, or proposal samples can be included with your proposal as exhibits.
Scope of Work	Are you willing to adjust bid to a scrub rental program as opposed to customer owned goods?	Please review the RFP Scope of Work - The intent of this RFP is evaluate potential solutions that may result in reduced inventory ownership and replacement costs, UCH labor costs and improve performance and efficiencies in providing scrubs to the authorized staff on a 24/7 basis. UConn Health invites qualified organizations to provide proposals demonstrating a cost effective scrub management program (to include provision of scrub dispensing and/or receiving machines and related equipment/software maintenance, scrubs , scrub laundry, inventory management and all transportation to complete these services) designed for distributing quality, freshly laundered scrubs to authorized UConn Health clinical staff at key operating/clinical locations on campus.
Scope of Work	By responding to the RFP are we locked into accepting Terms?	Please review the RFP Terms and Conditions (UCHC RFP-09) and the RFP Evaluation criteria. Any redlines to the UConn Health contract language will be evaluated and scored as part of the proposal evaluation process.
Scope of Work	Can you confirm that the terms will be 100% negotiable after awarding the RFP with no penalties?	UConn Health makes no guarantee of acceptance of any revisions to the terms and conditions included in the RFP prior to award. Please see UCHC RFP-09 "Any proposer that wishes to take exception to or otherwise modify UConn Health's terms and conditions in any way must submit all such requested changes with its proposal, for UConn Health's consideration."
