Background

The mission of the Connecticut Insurance Department is consumer protection. A key

function of the Department's Property Casualty Division is to review rate/ rule/ and form filings.

The Property and Casualty Division reviews all rate, rule, and form filings made by property and casualty insurers in the state. These filings cover approximately 23 major lines of insurance provided by approximately 525 licensed companies. Many filings include complex Predictive Models including General Linearized Models as well as other types of advanced statistical modeling.

Under Connecticut Public Act 19-125 and Connecticut General Statute 38a-8 (a) (g) effective July 1st 2019, the Department was provided statutory authority to secure outside consulting assistance at the expense of the companies to assist in its review of filings. The provision states:

(g) The commissioner may, in the commissioner's discretion, engage the services of such third-party actuaries, professionals and specialists that the commissioner deems necessary to assist the commissioner in reviewing any rate, form or similar filing submitted to the commissioner pursuant to this title. The cost of such services shall be borne by the person who submitted such rate, form or similar filing to the commissioner.

Rejection of Statement

The Department reserves the right to reject any Statement if nonconforming with this RFQ or if such rejection is for any reason deemed to be in the best interest of the State. No Statement will be accepted from any entity or person who is currently:

- (i) a respondent or defendant in any administrative or civil action brought by the Insurance Commissioner alleging misfeasance or negligence in a professional capacity; or
- (ii) a defendant in any action brought by the Commissioner in his or her capacity as liquidator or rehabilitator of an insurance company pursuant to C.G.S. chapter 704c, which alleges misfeasance or negligence by such defendant in a professional capacity. Any person or entity against whom a finding or judgment of misfeasance or negligence is upheld in any action by the Commissioner, will not be eligible to submit a statement to be considered for inclusion on the QPL for a three-year period from the date of the imposition of the ruling.

Following a review of the Statements, the Agency Procurement Officer ("APO") shall recommend to the Commissioner for approval a list of qualified service providers that satisfy the Department's criteria for each category as set forth in this RFQ. The Department's QPL will be used as the basis of selection when the need for a specific service arises. At such times, one or more qualified individuals and/or organizations may be asked to submit proposals on specific assignments for consideration. Proposals for each assignment will be evaluated and given fair consideration for a prospective engagement with the ultimate decision for a contract made by the Commissioner or designee. The Department will comply with the non-discrimination and affirmative action provisions of the Connecticut General Statutes as well as any other laws affecting contracting and the awarding of state contracts along with any applicable federal laws in the ultimate engagement of outside services.

Discretionary Rights Reserved to the Department

The Department reserves the right to award in part, to reject any and all Statements in whole or in part for Applicant misrepresentation or if the Applicant has defaulted on any

prior Department contract, or if the Statement limits or modifies any of the terms and conditions and/or specifications of this RFQ.

The Department also reserves the right to waive technical defects, irregularities and omissions, if, in its judgment, the interest of the Department will be served. The Department reserves the right to correct inaccurate awards resulting from clerical errors. This may include, in extreme circumstances, revocation of an awarded contract already entered into with a proposer and subsequently award of that contract to another proposer. Each person or entity submitting a Statement acknowledges that such revocation and re-award by the Department shall not constitute a breach of contract since the revoked contract with the initial Applicant is deemed to be void *ab initio* and of no effect as if no contract ever existed between the Department and the Applicant.

The Department also reserves the right to revise, discontinue or close to additional applicants this posting at any time.

Cost Liability

Neither the Department nor the State of Connecticut assumes any responsibility and no liability of any kind for costs incurred by an Applicant prior to selection and entry into a binding contract for a specific consulting engagement.

No Guarantee of Selection

Acceptance of your Statement and placement on the Department's QPL does **not** guarantee that an Applicant will be selected for any engagement.

General Information

Setting the scope of the specific filing review is the sole responsibility of the Department. The area in which the Department may need outside expertise will be determined by the breadth and scope of the filing and availability of Department staff resources.

Listed below are categories in which the Department may require assistance for the Property Casualty Division. The Department may contract with service providers from more than one category for assistance.

Each Applicant must meet the preferred requirements of each category of service for which consideration is sought for placement on the QPL. Further, the Applicant must provide all required information for each category under consideration. The Applicant may submit requests to be considered for one or more categories of service and may be qualified as a service provider for one or more categories.

All Applicants should review the template Contract for Consulting Services ("Contract"), and the associated certifications and affidavits as required by state law, samples of which is attached to this document as Appendix 1. **The terms and conditions of the core Contract for Consulting Services are in conformity with the contracting laws of the State of Connecticut and are not negotiable. Failure to accept the terms and conditions of the Contract will be grounds for exclusion from consideration.** Upon selection for a project, Exhibit A to the engagement Contract will reflect the negotiated Scope of Service requirements and compensation arrangements for each specific consulting engagement.

Appendix 2 hereto provides a link to the most recently published Guide to the Code of Ethics for Current or Potential State Contractors.

Please Note: The terms and conditions of the core Contract as well as the certifications or affidavits, are subject to change at any time as required by changes to state law or under the requirements of the Office of the Attorney General, Department of Administrative Services, State Insurance and Risk Management Board, Office of Policy and Management or the State Contracting Standards Board.

When submitting a Statement, the Applicant may wish to designate with an appropriate notation any page of the Statement that is believed to contain trade secret(s) or confidential information. While such a notation will not automatically constitute a determination that the information so designated is exempt from disclosure, it will aid the Department in evaluating the information in the event such evaluation becomes necessary for the purpose of determining whether it falls within an exception to the Freedom of Information laws.

Term of List and Renewal Requirements

Once qualified following submission and acceptance of a Statement pursuant to this RFQ, a QPL service provider will be eligible for consideration for an assignment through June 30 of each year. SECTION 3 – TECHNICAL STATEMENT – CATEGORIES OF SERVICE:

This section should identify how the Applicant satisfies the **preferred** requirements for any of the following service categories for which the Applicant seeks designation as a pre-qualified provider:

CATEGORY 1: Property/Casualty Rate Review

The Applicant will provide actuarial services with respect to property casualty rate filing reviews. The independent review of a company's rate filing will include an evaluation of the reasonableness and appropriateness of the overall rate level indication. Such review will incorporate analysis of the various components of the rate level including selected pure premiums, loss adjustment expenses, other expenses, experience discounts and any profit or contingencies loadings. In addition, all changes in rating factors such as increased limit factors, and tier relativities should also be reviewed. These rate filings include Workers' Compensation, Personal Auto, Homeowners, Medical Malpractice and other P&C filings; assistance with reviews of ISO, AAIS and NCCI loss costs filings as well as residual market rate filings for AIPSO, NCCI and the Fair Plan may also be needed.

Over the last few years, the complexity of rate filings has increased through the use of Generalized Linear Models (GLMs) and other more sophisticated models and techniques such as Gradient Boosted Tree analysis. The rate review would encompass an evaluation of these models including assessment of the appropriateness of the rating variables selected, review of model's test statistics and model validation, and obtain an understanding of the modeler's qualifications and model risk management.

The actuarial review work should follow accepted actuarial principles and adhere to the Code of Conduct and Actuarial Standards of Practice as promulgated by the American Academy of Actuaries.

All rate review work will be performed under the direction of a P/C Division Director and/or Department actuarial manager. The scope of the each engagement will be determined by the P/C Division Director and/or Department actuarial manager. For some engagements, the scope of the work may be selected portions of the filing; for other engagements, the complete rate filing may be the scope of work. The Scope of Services will be determined on a project by project basis, discussed with the consultant, and documented in the Scope of Services in Exhibit A which will be part of the contract for a specific engagement.

At the completion of the review, the Applicant shall deliver a comprehensive report with an executive summary of the findings and conclusions and a detailed description of the reviewer's approach and analysis. We are anticipating the primary focus of the report would be a detailed review of the company's GLM or other models in accordance with the Scope of Services.

The service provider will provide the Department with written status reports on a periodic basis or as determined by the Department and a report of findings within the timeframe specified in the Contract. The contents of conclusions reached, which is the sole responsibility of the Department, may contain excerpts from findings provided by the service provider.

Actuarial work papers are the property of the Department.

CATEGORY 2: Property Casualty Rule/Form Filing Review

Services may include evaluating new programs, new forms, new rules, as well as changes to current rules and forms. This work will be performed under the direction of the P/C Division Director and/or P/C Department Examiner who will identify the scope and project deliverables.

1. The qualifications and quantified experience of personnel to be providing consulting services.
2. The firms past performance on projects of similar scope and size. The ability of the Applicant, as judged by the State, to successfully complete the assignments within the proposed schedule.
3. Costs/fee structure.
4. Performance evaluations on file for Applicants currently on the Department's QPL.

SELECTION OF PROVIDERS FROM THE QPL FOR AN ENGAGEMENT

When the need for a specific service arises, the QPL will be used as the source for selection of a service provider(s). For some engagements the Department may choose to identify more than one service provider(s) and request additional information relative to specific qualifications for the assignment, availability of specialized resources, etc., prior to formulating a recommendation.

The following criteria will be used in the evaluation process:

- Demonstrated proficiency in performing assignments of this nature for Connecticut and other regulatory jurisdictions and/or the insurance industry;
- Personnel capabilities including the education, experience and skills required to provide the service, as well as sufficient staff resources to meet the Department's needs and established timeframes; and
- Professional fees and expense structure.

A recommendation to engage the service provider(s) will be submitted to the Agency Procurement Officer ("APO") who will make a recommendation to the Commissioner. The Commissioner shall accept, reject or modify the APO's recommendation.

The Department, in accordance with provisions of the Connecticut General Statutes, will prepare the actual Contract for Consulting Services ("Contract"). Statutory contractual provisions, a detailed description of the services to be provided, staffing levels, professional fees and expenses, deliverables, time frame for completion as well as the responsibilities of the service provider and the Department will be specified in the Contract.

By execution of the Contract, the selected service provider expressly agrees to comply with all statutory provisions of the core Contract. The Scope of Services will be customized for each outsourced project and will contain the provider's approach, deliverables and time frames and compensation.

In preparation for developing the Scope of Services, the proposed service provider(s)

may be required to review work papers, recorded information, documents and copies thereof produced by, obtained by or disclosed by the commissioner or any person in the course of the contracted service. Pursuant to Conn. Gen. Stat. §38a-8(f):

The commissioner shall maintain, as confidential, information obtained, collected or prepared in connection with examinations, inspections or investigations, and complaints from the public received by the Insurance Department if such records are protected from disclosure under federal law or state statute or, in the opinion of the commissioner, such records would disclose, or would reasonably lead to the disclosure of: (1) Investigative information the disclosure of which would be prejudicial to such investigation, until such time as the investigation is concluded; or (2) personal, financial or medical information concerning a person who has filed a complaint or inquiry with the Insurance Department, without the written consent of the person or persons to whom the information pertains.

There are various other confidentiality provisions which are applicable to other types of services to be provided. The proposed service providers may be asked to complete Nondisclosure/Confidentiality Agreements prior to accessing any information which may be considered to be confidential by statute.

The service provider must provide the Department, via the APO, an estimate of its professional fees and expenses based on staffing level, hours and rates for each phase of an engagement.

The service provider's bills must be submitted to the Department for review and approval. The Department will forward all approved invoices for payment to the Company where statutes require payment by the Company. In addition to its professional fees, the service provider may bill the Company for reasonable costs incurred in connection with the services contemplated by the Contract that may be incurred following submission of the deliverables as specified in the Contract.

All Contracts must be executed by a party who is authorized to bind the contract as evidenced by a board of directors' resolution or certification under oath.

THE ENGAGEMENT EVALUATION PROCESS

Not later than sixty days after a service provider completes work on a contract, the Department Division Director, Department actuarial manager or examiner involved in the oversight of the engagement will complete a written evaluation of the service provider's performance. The criteria to be considered include but are not limited to the following:

- Knowledge and understanding of Connecticut's regulatory framework;
- Performance (quality, quantity, thoroughness, accuracy and timing);
Communicating and reporting progress to the Department at regular intervals;
- Ability to deliver contracted services within agreed upon cost estimates; and
- Value added (training, researching issues, understanding and documenting new developments).

The Department's evaluation will also take into consideration the service provider's understanding of the scope of the assignment, time frame in which it was completed, the final work product and final cost of the services provided in comparison to the original estimate. A service provider must receive a satisfactory evaluation to be eligible for future projects.

Such right to cure period shall be extended if the non-breaching party is satisfied that the breaching party is making a good faith effort to cure but the nature of the breach is such that it cannot be cured within the right to cure period. The notice may include an effective Contract termination date if the breach is not cured by the stated date and, unless otherwise modified by the non-breaching party in writing prior to the termination date, no further action shall be required of any party to effect the termination as of the stated date. If the notice does not set forth an effective Contract termination date, then the non-breaching party may terminate the Contract by giving the breaching party no less than twenty four (24) hours' prior written notice. If the State believes that the Contractor has not performed according to the Contract, the State may withhold payment in whole or in part pending resolution of the performance issue, provided that the State notifies the Contractor in writing prior to the date that the payment would have been due in accordance with this Contract and section 38a-14 of the Connecticut General Statutes.

In the case of any such exception, the nonperforming party shall give immediate written notice to the other, explaining the cause and probable duration of any such nonperformance.

- (c) The Contractor shall reimburse the State for any and all damages to the real or personal property of the State caused by the Acts of the Contractor or any Contractor Parties. The State shall give the Contractor reasonable notice of any such Claims.
- (d) The Contractor's duties under this section shall remain fully in effect and binding in accordance with the terms and conditions of the Contract, without being lessened or compromised in any way, even where the Contractor is alleged or is found to have merely contributed in part to the Acts giving rise to the Claims and/or where the State is alleged or is found to have contributed to the Acts giving rise to the Claims.
- (e) The rights provided in this section for the benefit of the State shall encompass the recovery of attorneys' and other professionals' fees expended in pursuing a Claim against a third party.

Guidelines for valid corporate resolutions:

- The certification must bear an original signature by an officer of the corporation, preferably the secretary, and one other than the person authorized to sign the contract.
- The resolution should state the name of the person authorized to sign the contract. If the resolution only states the title of the officer so authorized, a certification by a corporate officer must be provided certifying that the individual signing the contract held that office at the time the contract was signed.
- The actual statement of the resolution (the language following the word “**RESOLVED**” in the examples), should contain the exact wording from the resolution that the Board adopted.
- The contract must be signed *exactly* as the name is called out in the resolution – the name and title must match precisely.
- The date on which the resolution was adopted can precede the date on which the contract was signed, but the date on which the resolution is certified cannot precede the date the contract was signed. For Example, for a contract signed July 1, 2003, the Certified Resolution can state that the resolution was adopted by the Board of Directors on March 1, 2002, but the Secretary must certify that the resolution was so adopted, and remains in effect, on or after July 1, 2003, thus showing that on the date the contract was signed, the signatory in fact had the authority to do so.
- If the corporation does not possess a corporate seal, the “L.S.” notation may be written next to the Secretary’s signature. In addition, the “L.S.” notation should be written next to the signature of the corporate officer on the contract itself. If the corporation does have a seal, the seal should be affixed both to the signature page of the contract and to the certified resolution.
- In lieu of a certified resolution, a certified copy of the applicable sections of the corporate bylaws which authorize execution of the contract by the signing person may be submitted along with a certification that the person signing the contract held the office in question at the time the contract was signed. Or, a certified copy of minutes of the board of directors at which the contract signatory was authorized to sign the contract under review (or the particular type of contract of which the one under review is an example) may be provided.
