**Clarifications #1 Bid#20-102 Promethean 75-inch Display Boards**

**Question:** Are you accepting offers for equal or better brands or does the brand have to be Promethean?

**Answer:** The Town prefers it to be completely compatible to the Promethean panels we currently have in use. We want to avoid additional training, software licensing and compatibility issues for students and teachers. Ideally we want to be consistent as we purchase these units.

A handwritten signature in black ink, appearing to read "Rawle Dummett". The signature is written over a horizontal line.
