Bid No.: 7652
Project: Jennings Field Irrigation System

Responses to Requests for Information

Question 1: Please provide the static water pressure at the Point of Connection.

Response 1: Design based on 50 GPM and 90 PSI. In November, 2019, the water pressure test result indicates the water pressure at the point of connection is approximately 90 PSI.

Question 2: Detail Sketch of where we should locate backflow preventer?

Response 2: The backflow preventer shall be located inside the concession stand.

Question 3: Is a backflow preventer enclosure required?

Response 3: The backflow preventer shall be installed inside the concession stand.

Question 4: Where in the new building will the irrigation controller be located? Who will supply the 120-volt to the new controller?

Response 4: The controller will be installed in a secure enclosure on the interior of the new building. The City will be responsible for the 120v power supply to the controller.
