John,

I confirm the project as depicted in the provided documentation and plans meet the Self-Verification eligibility criteria of the Army Corps' CT General Permit.

Thanks,

Brian Golembiewski

Brian:

In follow-up to my VM left last week. Is there any status update you can provide on our request? This is the final permit we need in place in order to put the project out to bid.

Also; if you could give me a call on the Indian River embankment repairs (NRCS Funded) to discuss an idea I have I'd appreciate it (203) 500-1766.

Thanks, JFT
