Subject – New DAS State Contracting Portal – Transition from Biznet to CTsource

**NOTICE TO CONTRACTORS**

The Department of Administrative Services has implemented a new e-Procurement system/portal called CTsource and is currently in the process of migrating other State agencies to CTsource. The Biznet contracting portal will no longer be available as of April 1, 2021 (subject to change by DAS).

It is highly recommended that all prospective contractors interested in doing business with the State of Connecticut, register with CTsource using the link below. One of the benefits of registering with CTsource is to receive email notifications when the Department advertises construction projects on the State Contracting Portal, now known as the new CTsource Bid Board.

I encourage you to visit the DAS State Contracting Portal link below for more information on CTsource registration and to become familiar with the new CTsource Bid Board and Contract Board. The Department will be advertising our construction projects on the new CTsource Bid Board effective February 24, 2021 (subject to change by DOT).
