- .1 **Inflation Values:** Adjust reported cost estimates to reflect inflation values. Do NOT present costs to the estimated start of construction, mid-point of construction or to present day values. Questions regarding the calculation of inflation values should be reviewed with the DCS Project Manager, Owner's Representative, and CMR.
- .2 **Cost of the Work Estimate Reconciliation:** Upon 50% and 100% completion of Construction Document Phase the A/E's Cost of the Work Estimate shall be required to be reconciled with the CMR's Cost of the Work Estimate. In conjunction with the DCS PM, Owner's Representative, and CMR, the A/E, as directed by the Owner, shall take the appropriate action to correct and/or avoid

potential cost overruns and make adjustments to their CD Phase Cost of the Work Estimate.

**E.4.3.4 CMR Conversion of the Architect's Construction Documents into Bidding Documents Packages:**

Upon completion of the "Construction Documents" (See Section 6.2, Definitions) and at the direction of DCS PM, the A/E shall provide the CMR with a complete set of Construction Documents. The CMR shall then convert the Construction Documents into logical, competitive, seamless, and distinct Subcontractor "Bidding Documents" (See Section 6.2, Definitions) Packages.

**E.4.3.5 CMR Subcontractor Bidding Packages:**

The CMR shall develop logical, competitive, unified and distinct Subcontractor Bid Packages with all scopes of work included in the packages.

**E.4.4 Bidding Phase:**

As a supplement to the requirements of Article VI of the Terms and Conditions – Attachment 1 of this Contract and Section 2.5.5, Bidding Phase of the Consultants Procedure Manual the A/E shall be required to participate in the Bidding Phase as follows:

**E.4.4.1 CMR Subcontractor Pre Bid Conferences:**

The A/E and their appropriate Consultants shall be required to attend and participate in all CMR Subcontractor Pre Bid Conferences.

**E.4.4.2 Subcontractor Bid Addenda:**

During the Bidding Phase for each and every CMR Subcontractor Bid, the A/E shall prepare all addenda and clarification documents, interpret the Construction Documents, provide an evaluation of equals and substitution and shall cooperate with the CMR and assist Owner, as requested, in architectural determinations and procedures required during the bidding phase.

**E.4.4.3 Subcontractor Bid Scope Review Meetings:**

Upon determination of the Lowest Responsible Bidder for each Subcontractor Bid and prior to CMR's submittal of their Guaranteed Maximum Price (GMP) to the Owner the A/E shall attend Subcontractor Bid Review Meetings with CMR and the low bid trade contractor. For some of the trade bids, say 33% of the trades, additional scope review meetings will occur with the second low bidder. The meetings will include a verification that all major and important aspects of the design have been included in the low bid. This review will be hosted by the CMR and attended by DCS PM, the OR/CA and the design firm plus subconsultants as appropriate.

- .1 The State of CT is not allowed to negotiate as part of its CMR Lowest Responsible Bidder contracting process. Therefore, all and any discrepancies discovered during the Subcontractor Bid Scope Review Meetings must be performed within the Subcontractor's low bid price as accepted by the State.
- .2 If provisions discovered by this Scope Review create a problem for the Subcontractor, that legal entity can withdraw their bid and choose to not sign the contract.

**E.4.4.4 GMP Proposal Review**

When the CMR submits the GMP Proposal to the Owner, the A/E and their appropriate Consultants shall review the GMP Proposal and the related "Assumptions and Conditions" and shall provide their comments and/or recommendations to the Owner for the Owner's consideration.

**E.4.5 Post Bid Phase - Conformed Set of Bid Documents:**

Upon conclusion of the Bidding Phase and prior to the start of construction the A/E shall create a complete set of Conformed Set of Bid Documents (See Section 6.2, Definitions). The A/E shall sign, seal, and date their Conformed Set of Bid Documents. The Conformed Set of Bid Documents shall comply with the following requirements:

**E.4.5.1 Changes to Electronic Files:**

The A/E shall maintain up-to-date electronic drawing and specification files throughout the Bidding Phase. Specifically, the A/E shall be responsible for incorporating the following changes into the master electronic drawing and specification files:

- .1 All Addendum Items issued during the official Bid Period after DCS's receipt of the A/E's "Construction Documents" (See Section 6.2, Definitions) and prior to the Owner's award of the CMR's GMP Amendment, for the purpose of correcting or clarifying the A/E's "Construction Documents."

**E.4.5.2 Conformed Set of Bid Documents:**

The "Construction Documents" that contain all pre-award "Addenda" changes are known as the "Conformed Set of Bid Documents." The Conformed Set of Bid Documents must incorporate all changes exactly as indicated on the pre-award Addendum and shall **NOT** include any changes, revisions, and/or deletions that were not part of a pre-award Addendum. If there are any changes, revisions, and/or deletions needed that were **NOT** part of a pre-award Addendum, the A/E shall notify the DCS PM in writing and submit "Proposal Request" as a separate document for a post-award construction modification. The A/E shall prepare the "Conformed Set of Bid Documents" documents as follows:

- .1 **Drawings:**  
Annotated with revision symbols to identify changes made by all "Addenda" changes; shall contain the words "CONFORMED BID DRAWING." To avoid replotting unchanged sheets, "CONFORMED BID DRAWING" may be stamped on a paper copy of the unchanged original "Final Bid Drawings." Add "CONFORMED" Bid Drawings in large letters on the Cover Sheet, which shall be signed, sealed, and dated by the A/E. All changed drawings shall be replotted, signed, sealed, and dated by the A/E.
- .2 **Specifications:**  
Add "CONFORMED BID SPECIFICATION" and the date in the footer at the bottom of all Specification pages and in large letters on all of the Specification Cover Sheets that are signed, sealed, and dated by the A/E.

**E.4.5.3 Submission of Conformed Set of Bid Documents:**

Prior to the start of Construction the A/E shall provide DCS with a copy of the Conformed Set of Bid Documents on a CD ROM for use by the CMR and their Subcontractors for use in preparing shop drawings, coordinating work, etc. When notified by DCS PM, the A/E shall provide the following:

- .1 **Submissions to Owner and CMR:** Within 14 Calendar days of the notice to proceed (NTP) to the CMR submit two (2) sets Conformed Bid Documents (Drawings) on CD ROMs and two (2) sets of Conformed Bid Documents (Specifications) on CD ROMs. Two (2) sets of hard copy, full size set Conformed Bid Documents (Drawings) and two (2) sets of hard copy Conformed Bid Documents (Specifications) with pages annotated as described above. All hard copy submittals shall be signed, sealed and dated by the A/E.
- .2 **Submissions to Department of Administrative Services, Division of Construction Services, (OSBI & OSFM) or DCS Code Unit:** Within 14 Calendar days of the NTP to the CMR submit two (2) sets of hard copy, full size set Conformed Bid Documents (Drawings) and two (2) sets of hard copy Conformed Bid Documents (Specifications) with pages annotated as described above. All hard copy submittals shall be signed, sealed and dated by the A/E.

**E.4.6 Principal's Meetings:**

The A/E is advised that there will be principals meetings during the project duration. The Principal Meetings will be attended by the normal Project Management staff and the Principals of the primary firms involved in this capital project; i.e., the design firm, the CMR Firm, the C.A. firm, the User Agency and the DCS. There will be two (2) meetings during Design, assume one at the start of Design Development, and one at the turnover of the Contract Documents. During active construction, there will be principals' meetings every four (4) months.

February 3, 1998  
Last Revision August 27, 2013

TERMS AND CONDITIONS OF CONTRACT  
BETWEEN STATE AND ARCHITECT

**I. GENERAL**

The amount of the total construction budget noted in Paragraph 4 of this contract is to include all construction work and the connecting up of all existing utilities and related services; it is to include any other costs directly chargeable to the proper functioning of the building with the exception of the furnishing of equipment other than that which is usually built in as a component part of the building. This amount is not to be exceeded except by prior and express written permission from the State.

**II. ARCHITECT'S SERVICES**

- A. The Architect agrees to prepare and furnish documents as set forth in Article VI.
- B. The Architect agrees to become familiar with and follow the Department of Administrative Services (DAS), Division of Construction Services (DCS), provisions set forth in the "DEPARTMENT OF ADMINISTRATIVE SERVICES, DIVISION OF CONSTRUCTION SERVICES CONSULTANTS PROCEDURE MANUAL," which may be amended and/or supplemented current with the date of this contract. These guidelines and provisions are incorporated herein by reference and shall be as binding upon the parties to this contract as though fully set forth herein.
- C. The Architect shall consult with the DCS Project Manager to ascertain requirements of the project and consult with proper State authorities and inform himself as to specific institutional conditions that might affect his contemplated work or the hours or season of its execution, such as type of patients, use of adjacent areas, interruptions of institutional routine, etc. The drawings and specifications submitted by the Architect for review and approval by the State shall reflect consideration of those conditions requiring safeguards and precautionary measures in excess of usual practice.
- D. Should the Architect require the services of registered consultants at any time during the term of this contract, their names and qualifications shall be submitted to the State for approval. Such consultants shall provide evidence of their competence by affixing their seals on any drawings or specifications prepared by them or under their supervision. The Architect shall pay such approved registered consultants in proportion to payments received by the Architect as set forth in Article IV, and shall submit evidence of such payments upon request by the State.
- E. The Architect covenants and agrees that he shall perform his services under this contract in accordance with the standards and practices of his profession.

**F. Indemnification.**

The Architect shall indemnify and hold harmless the State and its officers, representatives, agents, servants, employees, successors and assigns from and against any and all (1) Claims arising directly or indirectly in connection with the contract, concerning the negligent acts of commission or omission (collectively, the "Acts") of the Architect or Architect Parties, and (2) liabilities, damages, losses, costs and expenses, including but not limited to attorneys' and other professionals' fees, arising directly or indirectly in connection with Claims, Acts or the contract, to the extent of the Architect's or Architect Parties' negligence. The Architect's obligations under this section to indemnify and hold harmless against Claims includes

Claims concerning confidentiality of any part of or all of the Architect's bid, proposal or any Records, any intellectual property rights, other proprietary rights of any person or entity, copyrighted or uncopyrighted compositions, secret processes, patented or unpatented inventions, articles or appliances furnished or used in the performance.

### III. INSURANCE

The Architect for the duration of this contract, including any extension of the original contract term, must carry insurance to protect the interests of the State. The Architect must obtain statutory workers' compensation and employers' liability insurance, comprehensive automobile liability insurance, commercial general liability insurance and professional services liability insurance to not less than the minimum limits as required in this article, all at no cost to the State.

#### A. Statutory Workers' Compensation and Employers' Liability:

- |                            |                         |

D. Professional Services Liability Insurance: The Architect shall furnish evidence by way of a certificate of insurance that it has obtained a professional services liability insurance policy with \$2,000,000.00 each occurrence and per aggregate minimum coverage for negligence and errors and omissions. If any claims are paid against its professional services liability insurance policy, the Architect agrees to purchase additional insurance in order to maintain the minimum coverage of \$2,000,000.00 each occurrence and per aggregate. The insurance shall remain in effect during the entire duration of the contract and for eight years after substantial completion of the project. For policies written on a "Claims Made" basis, the Architect agrees to maintain a retroactive date prior to or equal to the effective date of the contract. The Architect shall contractually require any structural engineering firm it hires to maintain professional liability insurance in the same amount and with the same provisions indicated above. The Architect's policy shall provide that it shall indemnify and save harmless the State and its officers, agents and employees from claims, suits, actions, damages and costs of every name and description resulting from negligence and errors and omissions in the work performed by the Architect under the terms of the contract.

Each of the policies for such kinds of insurance mentioned above shall be issued by an insurance company or companies satisfactory to the DCS and shall contain a provision that coverages will not be changed, canceled, or non-renewed until at least sixty (60) calendar days' prior written notice has been given to the DCS. Each insurance policy shall state that the insurance company agrees to investigate and defend the insured against all claims for damages to the extent that all alleged damages might be covered by insurance. Such insurance policies shall name the State as an additional insured, except that the State shall not be named as an additional insured with respect to the coverage for the statutory workers' compensation, automobile liability, and employer's liability insurance and to the coverage for professional liability insurance. Certificates of insurance showing such coverages as required in this article shall be filed with the DCS prior to the time this contract is executed on behalf of the State.

### IV. PAYMENT OF ARCHITECT'S FEE

A. The State agrees to pay the Architect for the services herein described the total fee set forth in Paragraph 2 of this contract. It is understood that no changes or adjustments shall be made in said fee unless the scope of the work performed or to be performed by the Architect has substantially changed as determined by the

Commissioner of the Department of Administrative Services, Division of Construction Services, hereinafter referred to as the Commissioner.

- B. Said fee includes all costs of living, transportation and communication, whether within or without the State of Connecticut, connected with the discharge of the Architect's duties under this contract unless express written notification to the contrary is received from the State.
- C. No payments shall be made until the materials submitted have been reviewed and approved by the Department of Administrative Services, Division of Construction Services.

## V. SPECIAL SERVICES

- A. Should it be necessary for the Architect to engage the services of a licensed land surveyor, geotechnical engineer or test boring firm for the purposes of this contract, the State shall reimburse the Architect for the cost of such services and in addition shall also pay the Architect ten percent (10%) of such cost, or such other percentage deemed reasonable by the Commissioner, for overhead and profit. The Architect's selection of the consultant retained in connection therewith is to be submitted for approval.
- B. If, in the opinion of the State, any special technical service is required which is not usually furnished in architectural practice and which is not included in this contract, either expressed or implied by the nature of the work, then the State shall, in writing, authorize the service and the related cost. The Architect's selection of the consultant retained in connection therewith is to be submitted for approval. The State shall reimburse the Architect for the cost of any such services and in addition shall also pay the Architect ten percent (10%) of such cost, or such other percentage deemed reasonable by the Commissioner, for overhead and profit.
- C. Should the Architect itself wish to perform special services as described in Sections A and B of this article, the Architect shall submit to the State a written quotation of the cost of its performing such services. The quotation shall not include, nor shall the Architect be paid for, an additional percentage of the cost for overhead and profit. The State shall decide whether to allow the Architect to perform the work with its own forces based on its quotation, and shall notify the Architect accordingly.
- D. If at any time during the term of this contract the State should require the Architect to make any substantial change in the size or scope of the work or require any substantial change in plan, design or specification which shall necessitate the preparation by the Architect of additional sketches, drawings or other documents, or the making of substantial changes in any other document already approved, or upon which substantial work had been done pursuant to instruction to proceed, then, and in such event, the Architect shall prepare the additional documents and make changes as required and shall be entitled to reasonable compensation therefor. The Commissioner shall determine the amount of such compensation and the manner of payment thereof. If the State should require any such substantial changes and if these should result in a change in the amount of the total construction budget noted in Paragraph 4 of this contract, said amount shall be considered changed to an amount determined by the Commissioner.

The above notwithstanding, should it be necessary for the Architect to prepare any such additional documents or make changes in the same for purposes of meeting the budget requirements of the project, and where an increase in the cost of labor and/or materials is not the governing factor, he shall perform such duties without receiving additional compensation.

In addition, if at any time during the term of this contract the State should request the Architect to reduce the scope of services originally agreed upon under this contract, the Architect shall then reduce said scope of services, as requested, and his fee shall be reduced by a fair and equitable amount determined by the Commissioner.

- E. For reuse by the State of the drawings and specifications prepared by the Architect under this contract, the Architect shall be paid a reasonable fee for such reuse plus a reasonable fee for making necessary changes to such drawings and specifications as may be required by job conditions. The Commissioner shall determine the amounts of such fees.

## VI. SPECIFIC DOCUMENTS TO BE FURNISHED BY THE ARCHITECT WHEN AUTHORIZED

### A. Schematic Design Phase

Pursuant to conferences with the State, designs shall be prepared by the Architect to encompass the general program of the project. These designs shall consist of small scale drawings, elevations, sections and outline

specifications. All specifications shall be prepared in accordance with the CSI (Construction Specifications Institute) format. At this time the Architect shall make sufficiently accurate estimates to determine the feasibility of constructing the project within the funds available. At the beginning of the schematic design phase, the Architect shall engage his consultants as set forth in Section D of Article II. The Architect shall submit for review and approval the number of sets of drawings, specifications and detailed cost estimates as indicated in Paragraph 6 of this contract.

While preparing such drawings, specifications and detailed cost estimates, the Architect shall investigate any factors that may conflict with the use of the site as proposed, such as neighboring building lines, zoning regulations, sanitary codes, health and fire laws, local ordinances, etc., and shall report his findings thereon to the State when submitting schematic design phase drawings, outline specifications and detailed cost estimates.

If the estimate agreed to by the State and Architect exceeds the total construction budget noted in Paragraph 4 of this contract, or if the State and Architect cannot agree upon an estimate of the probable construction cost and the probable cost of construction as determined by the State exceeds both the Architect's estimate and the total construction budget noted in Paragraph 4 of this contract, then the Architect shall make appropriate recommendations to the State for adjustments to the documents in regards to the project's scope, quality, or budget. At that time, the State shall have the right to require the Architect to modify the documents as the State deems necessary to bring the cost within the amount of the total construction budget noted in Paragraph 4 of this contract. The revisions shall be made without additional compensation to the Architect.

#### **B. Design Development Phase**

The Architect must receive written notice from the State to proceed with the design development phase before commencing the phase. The design development phase drawings shall show the extent of the site, location of the project on the site and the general disposition of the principal features and equipment embodied in the project, and shall be sufficiently developed so as to fix and illustrate the size and character of the project in all of its essential basic particulars as to kinds of materials, types of structure, and mechanical and electrical systems. All specifications shall be prepared in accordance with the CSI (Construction Specifications Institute) format. The Architect shall submit for review and approval the number of sets of drawings, specifications and detailed cost estimates as indicated in Paragraph 6 of this contract.

Submitted with the design development phase drawings and specifications shall be an estimate of the cost of construction predicated on the same, and broken down into the major sub-trades for the construction of the building, with separate figures for special items such as equipment, site work, and utility lines. Basic engineering and other drawings and specifications shall also be provided at this time by the engineers and other consultants working under the direction of the Architect.

If the estimate agreed to by the State and Architect exceeds the total construction budget noted in Paragraph 4 of this contract, or if the State and Architect cannot agree upon an estimate of the probable construction cost and the probable cost of construction as determined by the State exceeds both the Architect's estimate and the total construction budget noted in Paragraph 4 of this contract, then the Architect shall make appropriate recommendations to the State for adjustments to the documents in regards to the project's scope, quality, or budget. At that time, the State shall have the right to require the Architect to modify the documents as the State deems necessary to bring the cost within the amount of the total construction budget noted in Paragraph 4 of this contract. The revisions shall be made without additional compensation to the Architect.

At this phase, a rendered colored and framed perspective drawing shall be submitted together with three (3) 8" x 10" black and white photographs thereof.

As the drawings submitted during this phase are to form the basis of the whole concept of the project, they shall be reviewed by the State for conformance to functional and technical requirements of the project and approved by the State before the Architect proceeds to the next phase. It is understood, however, that such review and approval does not relieve the Architect from any responsibility arising out of the State's reliance on his professional skill and ability to discharge his services as required by this contract.

#### **C. Contract Documents Phase**

The Architect must receive written notice from the State to proceed with the contract documents phase before commencing the phase. The documents to be provided in this phase are a part of the construction contract and as such must explain in substantial detail the full scope of the work included in, and performed under, the construction contract. A final detailed estimate of the cost of construction, including unit prices, quantities,

labor and materials, predicated on the contract documents phase drawings and detailed specifications, shall be included as a part of this phase. All specifications shall be prepared in accordance with the CSI (Construction Specifications Institute) format and in accordance with Part II of Chapter 60 of the Connecticut General Statutes, as revised, when applicable. The Architect shall submit for review and approval the number of sets of drawings, specifications and detailed cost estimates as indicated in Paragraph 6 of this contract. Such review and approval by the State does not relieve the Architect of responsibility arising out of the State's reliance on his professional skill and ability to discharge his services as required by the contract.

If the estimate agreed to by the State and Architect exceeds the total construction budget noted in Paragraph 4 of this contract, or if the State and Architect cannot agree upon an estimate of the probable construction cost and the probable cost of construction as determined by the State exceeds both the Architect's estimate and the total construction budget noted in Paragraph 4 of this contract, then the Architect shall make appropriate recommendations to the State for adjustments to the documents in regards to the project's scope, quality, or budget. At that time, the State shall have the right to require the Architect to modify the documents as the State deems necessary to bring the cost within the amount of the total construction budget noted in Paragraph 4 of this contract. The revisions shall be made without additional compensation to the Architect.

**If the project involves either new construction and/or additions to an existing facility, the Architect will consult with the client agency and develop the first year estimated operating cost for the project's utilities including, but not limited to, heating, cooling, water and sewer.**

All original final tracings shall, together with the specifications typed in letter quality print on one side of 8 1/2" x 11" white bond paper, be submitted by the Architect prior to the State's going to bid.

When the Architect has incorporated all comments and the documents are ready for bidding, the Architect will submit the tracings, master specifications, and a CD ROM disk of both to DCS. This submission will conclude the contract documents phase of the contract.

#### **D. Bidding Process**

In the event the Department of Administrative Services, Division of Construction Services, bids the contract drawings and specifications, the Architect shall, as part of the design services to be rendered for his established fee, include as much of his professional services as the State deems necessary for the well-being of the project and the efficient prosecution of the bidding process.

### **VII. ARCHITECT'S DUTIES DURING CONSTRUCTION**

- A. If the Architect's services during construction are requested as set forth in Subparagraph 2E of this contract, the Architect shall, as part of the services to be rendered for his established fee, include as much of his professional services and the services of his consultants as the State deems necessary for the well-being of the project and efficient prosecution of the construction work. The Architect shall not, however, be required to undertake continuous on-site observation of the work. If the Architect fails to perform such duties in a conscientious and reasonable manner, the State may exercise its right to terminate this contract as hereinafter provided in Article VIII.
- B. Additionally, it is understood and agreed to by the Architect and the State that, should the Architect's services during construction be requested, such services shall include, but not be limited to, the following:
1. observe the progress of construction in order to determine whether there appear to be any defects or deficiencies in the construction work or deviations from the drawings and specifications, including variations from the materials specified and the methods of construction authorized. The Architect shall not be required to guarantee the performance of the general contractor or his subcontractors;  
The Architect is obligated to immediately notify the DCS project manager, in writing, whenever any work is unsatisfactory, faulty or defective, or does not conform to the contract documents.
  2. attend job meetings as required, at which the Architect shall, on the basis of his visitations to the site and observations thereon, report on the progress of the work and make recommendations concerning the same; participate in monthly meetings with the general contractor to obtain information necessary to be able to update the as-built drawings.

3. submit to the Department of Administrative Services, Division of Construction Services, on the fifteenth and last days of each month, in such form as directed by the State, observation-based reports regarding the progress of the work;
  4. examine submittals and furnish recommendations to the State concerning material and equipment, and review and report on the general contractor's proposals in connection with changes in the construction contract. These services are to be performed within five (5) calendar days of receipt of such proposals so as not to delay the work;
  5. review and return partial payment requisitions submitted by the general contractor within three (3) working days of the receipt of such submittals;
  6. review and comment on shop drawings submitted to him for review. This service is to be performed within five (5) working days of the receipt of such submittals unless the Department of Administrative Services, Division of Construction Services, assents to written notification of why this cannot be accomplished;
  7. within thirty (30) calendar days after receipt, record on the original final tracings and CAD disks returned to him after the construction contract award all changes made during the period of construction as furnished and recorded by the general contractor, and, at his expense, provide reproducible mylars and updated CAD disks to the State which reflect such changes. The mylars and CAD disks shall become the property of the State;
  8. fully cooperate with the Department of Administrative Services, Division of Construction Services, during the progress of the work.
- C. In the event that the time period of the construction contract is exceeded by more than 10% due to no fault of the Architect, the Architect may be paid for any additional services required beyond the 10% construction contract time overrun a reasonable fee to be determined by the Commissioner. The question of fault or no fault on the part of the Architect shall be determined by the Commissioner.

#### VIII. TERMINATION OF CONTRACT

- A. Notwithstanding any provisions or language in this contract to the contrary, the Commissioner may terminate the contract whenever he determines in his sole discretion that such termination is in the best interest of the State. Any such termination shall be effected by delivery to the Architect of a written notice of termination. The notice of termination shall be sent by registered or certified mail to the Architect's address as furnished to the State for purposes of correspondence, or by hand delivery. Upon receipt of such notice, the Architect shall both immediately discontinue all services affected (unless the notice directs otherwise) and deliver to the State all data, drawings, specifications, reports, estimates, summaries, and such other information and materials as may have been accumulated by the Architect in performing his duties under this contract, whether completed or in progress. All such documents, information and materials shall become the property of the State.
- B. If the termination is for the convenience of the State, the Architect shall be entitled to receive reasonable compensation for services already satisfactorily performed and accepted, but no amount shall be allowed for anticipated profit on unperformed services. The Commissioner shall determine the amount of such compensation.
- C. If the termination is for reason of failure of the Architect to fulfill his contract obligations, the State may take over the work and prosecute the same to completion by contract or otherwise. In such event, the Architect shall be liable to the State for any additional costs occasioned to the State thereby.
- D. If after notice of termination for failure of the Architect to fulfill his contract obligations it is determined that the Architect had not so failed, the termination shall be deemed to have been effected for the convenience of the State. In such event, the Architect shall be entitled to reasonable compensation as provided in Section B of this article.
- E. If the Architect is a sole proprietor and the Architect should die during the term of this contract, this contract shall be considered terminated. In the event of such termination, the Architect's estate shall be entitled to a reasonable payment for any uncompensated work performed to the date of death, and the State shall have title to, and shall have the right to immediate use and possession of, all finished and unfinished documents prepared under this contract. The Commissioner shall determine the amount of such payment.

- F. The rights and remedies of the parties provided in this article are in addition to any other rights and remedies provided by law or under this contract.

**IX. SUSPENSION OF THE WORK**

- A. The State, at any time, may suspend all or any part of the services of the Architect. In such event, the Architect shall be given three (3) days' notice of such suspension in writing by registered or certified mail to the Architect's address as given for correspondence purposes. The mailing of such notice shall preclude any claim on the part of the Architect as to failure to receive notice of such suspension.
- B. In the event of suspension by the State as noted above, the Architect shall be entitled to such compensation as the Commissioner shall deem reasonable.
- C. Should the State reactivate any assigned work covered by this contract, in whole or in part, within one year from the time the work was suspended, any fees paid to the Architect pursuant to this contract shall be applied as payment on the fees for the work as set forth in this contract at the time of reactivation. Should reactivation occur after a period of suspension exceeding one (1) year, the Architect and the State may renegotiate the fees for the work based on current conditions or either may unilaterally elect to terminate the remaining work.
- D. In the event the State decides to suspend any work under this contract, the State shall become entitled, after payment of outstanding fees, to all finished and unfinished documents prepared pursuant to this contract.
- E. If the Architect should be unwilling or unable to perform the services required by this contract at the time the State desires to reactivate the work after a period of suspension, then all finished or unfinished documents prepared pursuant to this contract shall become the property of the State and the State shall have the right to immediate possession and use thereof.

**X. CONFIDENTIALITY OF DOCUMENTS**

- A. The Architect agrees on behalf of the Architect and the Architect's principals, employees, agents, heirs, successors and assigns that they shall only utilize drawings, specifications, maps, reports, records or other documents to the extent necessary for the performance of the Architect's work and duties under this contract. This limitation on use applies to those items produced by the Architect, as well as to those items received by the Architect from the Department of Administrative Services, Division of Construction Services, or others in connection with the Architect's work and duties under this contract.
- B. The Architect further agrees that said drawings, specifications, maps, reports, records and other documents may not be released to any other entity or person except for the sole purpose of the work described in this contract. No other disclosure shall be permitted without the prior written consent of the Department of Administrative Services, Division of Construction Services.
- C. The Architect further agrees that the following provision will be included in its contracts with sub-consultants:

Any and all drawings, specifications, maps, reports, records or other documents associated with the contract work shall only be utilized to the extent necessary for the performance of the work and duties under this contract. Said drawings, specifications, maps, reports, records and other documents may not be released to any other entity or person except for the sole purpose of the work described in this contract. No other disclosure shall be permitted without the prior written consent of the Department of Administrative Services, Division of Construction Services. When any such drawings, specifications, maps, reports, records or other documents are no longer needed, they shall be destroyed.
