Contractor Property in accordance with the terms and conditions of the written notice. Failure to remove the Rejected Goods or the Contractor Property in accordance with the terms and conditions of the written notice shall mean, for itself and all Contractor Parties, that:

- (1) they have voluntarily, intentionally, unconditionally, unequivocally and absolutely abandoned and left unclaimed the Rejected Goods and Contractor Property and relinquished all ownership, title, licenses, rights, possession and interest of, in and to (collectively, "Title") the Rejected Goods and Contractor Property with the specific and express intent of (A) terminating all of their Title to the Rejected Goods and Contractor Property, (B) vesting Title to the Rejected Goods and Contractor Property in the State of Connecticut and (C) not ever reclaiming Title or any future rights of any type in and to the Rejected Goods and Contractor Property;
 - (2) there is no ignorance, inadvertence or unawareness to mitigate against the intent to abandon the Rejected Goods or Contractor Property;
 - (3) they vest authority, without any further act required on their part or the State's part, in the Client Agency and the State to use or dispose of the Rejected Goods and Contractor Property, in the State's sole discretion, as if the Rejected Goods and Contractor Property were the State's own property and in accordance with law, without incurring any liability or obligation to the Contractor or any other party;
 - (4) if the State incurs any costs or expenses in connection with disposing of the Rejected Goods and Contractor Property, including, but not limited to, advertising, moving or storing the Rejected Goods and Contractor Property, auction and other activities, the State shall invoice the Contractor for all such cost and expenses and the Contractor shall reimburse the State no later than thirty (30) days after the date of invoice; and
 - (5) they do remise, release and forever discharge the State and its employees, departments, commissions, boards, bureaus, agencies, instrumentalities or political subdivisions and their respective successors, heirs, executors and assigns (collectively, the "State and Its Agents") of and from all Claims which they and their respective successors or assigns, jointly or severally, ever had, now have or will have against the State and Its Agents arising from the use or disposition of the Rejected Goods and Contractor Property.
- (b) The Contractor shall secure from each Contractor Party, such document or instrument as necessary or appropriate as will vest in the Contractor plenary authority to bind the Contractor Parties to the full extent necessary or appropriate to give full effect to all of the terms and conditions of this section. The Contractor shall provide, no later than fifteen (15) days after receiving a request from the State, such information as the State may require to evidence, in the State's sole determination, compliance with this section.
6. Order and Delivery. The Contract shall bind the Contractor to furnish and deliver the Goods or Services in accordance with Exhibit A and at the prices set forth in Exhibit B. Subject to the sections in this Contract concerning Force Majeure, Termination and Open Market Purchases, the Contract shall bind the Client Agency to order the Goods or Services from the Contractor, and to pay for the accepted Goods or Services in accordance with Exhibit B.
7. Contract Amendments.

Contract Document

RFP-50 Rev. 11/18/16

Prev. Rev. 8/16/16

No amendment to or modification or other alteration of the Contract shall be valid or binding upon the State unless made in writing, signed by both parties and, if applicable, approved by the Connecticut Attorney General.

8. Assignment. The Contractor shall not assign any of its rights or obligations under the Contract, voluntarily or otherwise, in any manner without the prior written consent of DAS. DAS may void any purported assignment in violation of this section and declare the Contractor in breach of Contract. Any Termination by DAS for a breach is without prejudice to DAS's or the State's rights or possible Claims.
9. Termination.
 - (a) Notwithstanding any provisions in this Contract, DAS, through a duly authorized employee, may Terminate the Contract whenever DAS makes a written determination that such Termination is in the best interests of the State. DAS shall notify the Contractor in writing of Termination pursuant to this section, which notice shall specify the effective date of Termination and the extent to which the Contractor must complete its Performance under the Contract prior to such date.
 - (b) Notwithstanding any provisions in this Contract, DAS, through a duly authorized employee, may, after making a written determination that the Contractor has breached the Contract, Terminate the Contract in accordance with the provisions in the Breach section of this Contract.
 - (c) DAS shall send the notice of Termination via certified mail, return receipt requested, to the Contractor at the most current address which the Contractor has furnished to DAS for purposes of correspondence, or by hand delivery. Upon receiving the notice from DAS, the Contractor shall immediately discontinue all services affected in accordance with the notice, undertake all commercially reasonable efforts to mitigate any losses or damages, and deliver to the Client Agency all Records. The Records are deemed to be the property of the Client Agency and the Contractor shall deliver them to the Client Agency no later than thirty (30) days after the Termination of the Contract or fifteen (15) days after the Contractor receives a written request from either DAS or the Client Agency for the Records. The Contractor shall deliver those Records that exist in electronic, magnetic or other intangible form in a non-proprietary format, such as, but not limited to, ASCII or .TXT.
 - (d) Upon receipt of a written notice of Termination from DAS, the Contractor shall cease operations as DAS directs in the notice, and take all actions that are necessary or appropriate, or that DAS may reasonably direct, for the protection, and preservation of the Goods and any other property. Except for any work which DAS directs the Contractor to Perform in the notice prior to the effective date of Termination, and except as otherwise provided in the notice, the Contractor shall terminate or conclude all existing subcontracts and purchase orders and shall not enter into any further subcontracts, purchase orders or commitments.
 - (e) The Client Agency shall, within forty-five (45) days of the effective date of Termination, reimburse the Contractor for its Performance rendered and accepted by the Client Agency in accordance with Exhibit A, in addition to all actual and reasonable costs incurred after Termination in completing those portions of the Performance which the notice required the Contractor to complete. However, the Contractor is not entitled to receive and the Client Agency is not obligated to tender to the Contractor any payments for anticipated or lost profits. Upon request by DAS or the Client Agency, as applicable, the Contractor shall assign to DAS or the Client Agency, or any replacement contractor which DAS or the Client Agency

Prev. Rev. 8/16/16

designates, all subcontracts, purchase orders and other commitments, deliver to DAS or the Client Agency all Records and other information pertaining to its Performance, and remove from State premises, whether leased or owned, all of Contractor's property, equipment, waste material and rubbish related to its Performance, all as DAS or the Client Agency may request.

- (f) For breach or violation of any of the provisions in the section concerning Representations and Warranties, DAS may Terminate the Contract in accordance with its terms and revoke any consents to assignments given as if the assignments had never been requested or consented to, without liability to the Contractor or Contractor Parties or any third party.
- (g) Upon Termination of the Contract, all rights and obligations shall be null and void, so that no party shall have any further rights or obligations to any other party, except with respect to the sections which survive Termination. All representations, warranties, agreements and rights of the parties under the Contract shall survive such Termination to the extent not otherwise limited in the Contract and without each one of them having to be specifically mentioned in the Contract.
- (h) Termination of the Contract pursuant to this section shall not be deemed to be a breach of contract by DAS.

10. Cost Modifications. The parties may agree to a reduction in the cost of the Contract at any time during which the Contract is in effect. Without intending to impose a limitation on the nature of the reduction, the reduction may be to hourly, staffing or unit costs, the total cost of the Contract or the reduction may take such other form as the State deems to be necessary or appropriate.

11. Breach. If either party breaches the Contract in any respect, the non-breaching party shall provide written notice of such breach to the breaching party and afford the breaching party an opportunity to cure the breach within ten (10) days from the date that the breaching party receives such notice. Any other time provided for in the notice shall trump such ten (10) days. Such right to cure period shall be extended if the non-breaching party is satisfied that the breaching party is making a good faith effort to cure but the nature of the breach is such that it cannot be cured within the right to cure period. The notice may include an effective Contract Termination date if the breach is not cured by the stated date and, unless otherwise modified by the non-breaching party in writing prior to the Termination date, no further action shall be required of any party to effect the Termination as of the stated date. If the notice does not set forth an effective Contract Termination date, then the non-breaching party may Terminate the Contract by giving the breaching party no less than twenty four (24) hours' prior written notice. If DAS believes that the Contractor has not performed according to the Contract, the Client Agency may withhold payment in whole or in part pending resolution of the Performance issue, provided that DAS notifies the Contractor in writing prior to the date that the payment would have been due in accordance with Exhibit B.

12. Waiver.

- (a) No waiver of any breach of the Contract shall be interpreted or deemed to be a waiver of any other or subsequent breach. All remedies afforded in the Contract shall be taken and construed as cumulative, that is, in addition to every other remedy provided in the Contract or at law or in equity.

Contract # 18PSX0031

Contract Document

RFP-50 Rev. 11/18/16

Prev. Rev. 8/16/16

(b) A party's failure to insist on strict performance of any provision of the Contract shall only be deemed to be a waiver of rights and remedies concerning that specific instance of Performance and shall not be deemed to be a waiver of any subsequent rights, remedies or breach.

13. Open Market Purchases. Failure of the Contractor to Perform within the time specified in the Contract, or failure to replace rejected or substandard Goods or fulfill unperformed Services when so requested and as the Contract provides or allows, constitutes a breach of the Contract and as a remedy for such breach, such failure shall constitute authority for DAS, if it deems it to be necessary or appropriate in its sole discretion, to Terminate the Contract and/or to purchase on the open market, Goods or Services to replace those which have been rejected, not delivered, or not Performed. The Client Agency shall invoice the Contractor for all such purchases to the extent that they exceed the costs and expenses in Exhibit B and the Contractor shall pay the Client Agency's invoice immediately after receiving the invoice. If DAS does not Terminate the Contract, the Client Agency will deduct such open market purchases from the Contract quantities. However, if the Client Agency deems it to be in the best interest of the State, the Client Agency may accept and use the Goods or Services delivered which are substandard in quality, subject to an adjustment in price to be determined by the Client Agency.

14. Purchase Orders.

- (a) The Contract itself is not an authorization for the Contractor to ship Goods or begin Performance in any way. The Contractor may begin Performance only after it has received a duly issued purchase order against the Contract for Performance.
- (b) The Client Agency shall issue a purchase order against the Contract directly to the Contractor and to no other party.
- (c) All purchase orders shall be in written or electronic form, bear the Contract number (if any) and comply with all other State and Client Agency requirements, particularly the Client Agency's requirements concerning procurement. Purchase orders issued in compliance with such requirements shall be deemed to be duly issued.
- (d) A Contractor making delivery without a duly issued purchase order in accordance with this section does so at the Contractor's own risk.
- (e) The Client Agency may, in its sole discretion, deliver to the Contractor any or all duly issued purchase orders via electronic means only, such that the Client Agency shall not have any additional obligation to deliver to the Contractor a "hard copy" of the purchase order or a copy bearing any hand-written signature or other "original" marking.

15. Indemnification.

- (a) The Contractor shall indemnify, defend and hold harmless the State and its officers, representatives, agents, servants, employees, successors and assigns from and against any and all (1) Claims arising, directly or indirectly, in connection with the Contract, including the acts of commission or omission (collectively, the "Acts") of the Contractor or Contractor Parties; and (2) liabilities, damages, losses, costs and expenses, including but not limited to, attorneys' and other professionals' fees, arising, directly or indirectly, in connection with Claims, Acts or the Contract. The Contractor shall use counsel reasonably acceptable to the State in carrying out its obligations under this section. The Contractor's obligations under this section to indemnify, defend and hold harmless against Claims includes Claims

concerning confidentiality of any part of or all of the Contractor's bid, proposal or any Records, any intellectual property rights, other proprietary rights of any person or entity, copyrighted or uncopyrighted compositions, secret processes, patented or unpatented inventions, articles or appliances furnished or used in the Performance.

- (b) The Contractor shall not be responsible for indemnifying or holding the State harmless from any liability arising due to the negligence of the State or any other person or entity acting under the direct control or supervision of the State.
- (c) The Contractor shall reimburse the State for any and all damages to the real or personal property of the State caused by the Acts of the Contractor or any Contractor Parties. The State shall give the Contractor reasonable notice of any such Claims.
- (d) The Contractor's duties under this section shall remain fully in effect and binding in accordance with the terms and conditions of the Contract, without being lessened or compromised in any way, even where the Contractor is alleged or is found to have merely contributed in part to the Acts giving rise to the Claims and/or where the State is alleged or is found to have contributed to the Acts giving rise to the Claims.
- (e) The Contractor shall carry and maintain at all times during the term of the Contract, and during the time that any provisions survive the term of the Contract, sufficient general liability insurance to satisfy its obligations under this Contract. The Contractor shall cause the State to be named as an additional insured on the policy and shall provide (1) a certificate of insurance, (2) the declaration page and (3) the additional insured endorsement to the policy to DAS all in an electronic format acceptable to DAS prior to the Effective Date of the Contract evidencing that the State is an additional insured. The Contractor shall not begin Performance until the delivery of these 3 documents to DAS. Contractor shall provide an annual electronic update of the 3 documents to DAS on or before each anniversary of the Effective Date during the Contract Term. State shall be entitled to recover under the insurance policy even if a body of competent jurisdiction determines that State is contributorily negligent.
- (f) This section shall survive the Termination of the Contract and shall not be limited by reason of any insurance coverage.

16. Forum and Choice of Law. The parties deem the Contract to have been made in the City of Hartford, State of Connecticut. Both parties agree that it is fair and reasonable for the validity and construction of the Contract to be, and it shall be, governed by the laws and court decisions of the State of Connecticut, without giving effect to its principles of conflicts of laws. To the extent that any immunities provided by Federal law or the laws of the State of Connecticut do not bar an action against the State, and to the extent that these courts are courts of competent jurisdiction, for the purpose of venue, the complaint shall be made returnable to the Judicial District of Hartford only or shall be brought in the United States District Court for the District of Connecticut only, and shall not be transferred to any other court, provided, however, that nothing here constitutes a waiver or compromise of the sovereign immunity of the State of Connecticut. The Contractor waives any objection which it may now have or will have to the laying of venue of any Claims in any forum and further irrevocably submits to such jurisdiction in any suit, action or proceeding.

17. Contractor Guaranties. Contractor shall:

- (a) Perform fully under the Contract;

RFP-50 Rev. 11/18/16

Prev. Rev. 8/16/16

- (b) Guarantee the Goods or Services against defective material or workmanship and to repair any damage or marring occasioned in transit or, at the Client Agency's option, replace them;
 - (c) Furnish adequate protection from damage for all work and to repair damage of any kind, for which its workers are responsible, to the premises, Goods, the Contractor's work or that of Contractor Parties;
 - (d) With respect to the provision of Services, pay for all permits, licenses and fees and give all required or appropriate notices;
 - (e) Adhere to all Contractual provisions ensuring the confidentiality of Records that the Contractor has access to and are exempt from disclosure under the State's Freedom of Information Act or other applicable law; and
 - (f) Neither disclaim, exclude nor modify the implied warranties of fitness for a particular purpose or of merchantability.
18. Implied Warranties. DAS does not disclaim, exclude or modify the implied warranty of fitness for a particular purpose or the warranty of merchantability.
19. Goods, Standards and Appurtenances. Any Goods delivered must be standard new Goods, latest model, except as otherwise specifically stated in the Contract. Remanufactured, refurbished or reconditioned equipment may be accepted but only to the extent allowed under the Contract. Where the Contract does not specifically list or describe any part or nominal appurtenances of equipment for the Goods, it shall be understood that the Contractor shall deliver such parts and appurtenances as are usually provided with the manufacturer's stock model.
20. Delivery.
- (a) Delivery shall be made as ordered and in accordance with the Contract. Unless otherwise specified in the Contract, delivery shall be to a loading dock or receiving platform. The Contractor or Contractor's shipping designee shall be responsible for removal of Goods from the carrier and placement on the Client Agency loading dock or receiving platform. The receiving personnel of the Client Agency are not required to assist in this process. The decision of DAS as to reasonable compliance with delivery terms shall be final and binding. The burden of proof of proper receipt of the order shall rest with the Contractor.
 - (b) In order for the time of delivery to be extended, the Client Agency must first approve a request for extension from the time specified in the Contract, such extension applying only to the particular item or shipment.

However, all materials associated with the Proposal and the Contract are subject to the terms of the Connecticut Freedom of Information Act ("FOIA") and all corresponding rules, regulations and interpretations. In making such a request, the Contractor may not merely state generally that the materials are proprietary or confidential in nature and not, therefore, subject to release to third parties. Accordingly, DAS may then exercise at its sole option any and all of its rights or remedies provided for in the Contract or Other Agreements, either selectively or collectively and without such election being deemed to prejudice any rights or remedies of DAS, as if the Contractor or Contractor Parties had suffered a breach, default or failure to perform under the Other Agreements.
- (b) If the Contractor or Contractor Parties breach, default or in any way fail to Perform satisfactorily under any or all Other Agreements with DAS or the State, then DAS may, in its sole discretion, without more and without any action whatsoever required of the State, treat any such event as a breach, default or failure to Perform under the Contract. SNMP to gather device information. This protocol must be enabled on the network and across the print fleet.

- **Fleet Configuration and Utilization:** Web Jetadmin offers a simple, web-based interface to install, configure, troubleshoot, and manage both HP and non-HP networked and PC connected print devices. HP Web Jetadmin can help save you time with its ability to auto-discover new device IP addresses, quickly and easily set group policies, and configure or change device network settings for initial deployment or after installation. Web Jetadmin will optimize and protect imaging and printing assets with effective fleet management and reporting while easily configuring your fleet for cost savings—such as defaulting to duplex printing. In addition, end-user rules can be established to help control cost, such as access to color or to protect sensitive information in print jobs. - **Continual Optimization:** Continual optimization of print output environment, regardless of printer brand.

EXHIBIT A

DESCRIPTION OF GOODS & SERVICES AND ADDITIONAL TERMS & CONDITIONS

- **Innovative Solution:** Contractor shall work with the Client Agency to eliminate unnecessary printing by focusing on applications and document workflow. Contractor shall work with the owners of applications and migrate them to new workflow solutions, which will not only reduce carbon footprint but also reduce spend and increase productivity. In addition, Contractor will look at printer optimization and printer consolidation. Pull printing will be instituted where feasible in all print environments as it will force a user to enter a code or card swipe at the device to pull a print out of queue and various time limits can be set for a print to expire in the queue. If the user does not enter the code or card swipe by the time the limit is up, the print will be eliminated out of the queue.

- **On-Going Assessment:** Contractor shall provide a regular On-going Assessment to evaluate the Customer's identified objectives outlined in the initial assessment. The Ongoing Assessment will include but is not limited to continuous process improvement, and business reviews such as: device utilization, fleet performance, cost saving opportunities, department/site usage, green spend, consumables monitoring report, remote management and service level agreement monitoring, etc. The On-going Assessment will be conducted semi-annually or more frequently as specified by the Customer in the Statement of Work.

Contractor shall prepare invoices for service, supplies, and support as required per terms and conditions set forth in RFP 18PSX0031.

(H)Software Required

Mobile device printing software

Contractor shall provide the following software to perform MPS:

HP Universal Device Agent: HP Universal Device Agent (UDA) is a data collection tool critical to the service delivery of HP Managed Print Services (MPS). HP UDA gathers data from your print devices and transfers the data to HP Servers in a safe and secure manner. With the installation of HP UDA, HP can gather usage counts and supplies levels from the networked imaging and printing devices for billing and

EXHIBIT A

DESCRIPTION OF GOODS & SERVICES AND ADDITIONAL TERMS & CONDITIONS

supplies replenishment purposes only. In the case of non-networked imaging and printing devices directly attached to a PC (e.g. via USB or Parallel cable), an additional software utility called the “PC Direct Connect SNMP Proxy” is required with the HP UDA to retrieve the usage counters and supplies levels.

The Discover phase involves using SNMP to search specified IP Addresses and locate imaging devices. The first step includes sending one SNMP packet to all specified IP addresses, if a reply is received, a unique set of Object Identifiers (OIDs) is sent to identify the imaging device. The imaging device is “discovered” and data is stored in the database for the Collect phase. Discover interval occurs every 5 hours.

HP Web Jetadmin: HP Web Jetadmin Print Management Software is a solution that provides effective fleet management and reporting, it helps manage volumes, the nature of print, and authentication of end users. Deploying HP Web Jetadmin helps to optimize and protect your imaging and printing assets with effective fleet management and reporting. Being able to easily configure your fleet for cost savings, establish fleet administration rules, identify devices that are underutilized, implement end-user rules and access critical fleet information (status, configuration, alerts, groups, supplies, and troubleshooting—on a single screen). Using this single tool Using Agency will be able to discover devices, configure devices, create device groups and templates, conduct remote diagnostics, upgrade device firmware and monitor/manage supplies. Some of the key attributes that HP Web Jetadmin provides to meet the above-described features include:

- Identification of end users that are printing;
- Identification of the type of jobs the end users are printing;
- Identification of the color vs. black-and-white usage by end user;
- Identification of print usage (increase or decrease month-to- month);
- Advanced analytic reporting tools and dashboards.

HP Enterprise ePrint (Mobile Print) App: The HP ePrint app is a mobile application that lets Client Agency print to any supported printer that is on the same wireless network as your mobile device and to cloud-connected printers

NWN MPS Portal: The NWN MPS Portal is an interactive online portal that allows both end users and the NWN support team to manage the MPS environment.

Job Based Accounting Tool: Contractor offers job-based accounting functionality. This software will track print jobs and provide characteristics of each print job including end user and overall print count.

(I) Implementation Plan

Step 1. Implement Assessment Process: Contractor shall gather information about the devices including current page counts and will verify devices are in a supportable state. The Assessment Process enables Contractor to verify an inventory list in relation to the contract for device management. Contractor shall work closely with you through the Assessment Process to manage communication and outcomes.

- **Step 2. Device Health Check:** Contractor performs an onsite health check of each device. Devices are checked for print quality and performance. Parts showing extreme wear are replaced, and broken devices are brought back to life when desired. Supplies are checked and replaced if significantly low.
- **Step 3. Asset Tagging:** At the completion of the health check exercise, each device receives a printer asset tag containing a unique identification number for tracking in our service delivery system. The identification number is loaded into Contractor database, along with instructions for technicians to locate the device.
- **Step 4. MPS Program Onboarding:** The Contractor Onboarding team will meet with Client Agency team to jointly determine the following:
 - Identification of project champion(s) and respective roles
 - An implementation timeline
 - Unique location logistics/communications, i.e., property security requirements
 - Review of service level agreements and requirements for service delivery
- **Step 5. Client Communications:** Contractor shall prepare Client Agency users for the transition, address concerns, and provide assistance around process changes. Contractor shall collaborate with Client Agency to develop an internal communications plan to keep end users informed of changes prior to implementation. Contractor shall also work together with Client Agency to define the Service Request Process and communicate this information to end-users.
- **Step 6. New Hardware Training (when applicable):** If Client Agency purchases new HP hardware at the time of MPS initiation, Contractor shall provide basic device training as determined during an on-boarding meeting. As devices are installed and configured, Contractor account associates shall conduct an informal walk-around training. This training shall cover the key features and benefits as well as performance capabilities of new devices including basic printing, fax, and scanner features, as applicable. This is a high level overview training designed to provide a basic understanding of the device functionality such as how and where to load consumables, how to clear paper jams, how to access toner cartridges for changing, and simple front-panel tutorials. Options for more in-depth training can be made available.
- **Step 7. Communicate Service Request Standard Process:** Service request lines are open Monday through Friday, 6:00 a.m. to 6:00 p.m. MST. When Client Agency calls HPI at the toll-free number indicated on the asset tag, dispatcher answering the phone will ask for the employee's name, Client Agency, printer identification number (found on the printer sticker), and a brief description of the reason for the call. The dispatcher will confirm the data in Contractor system and create a service call.

(J) Training Plan

Initial New Hardware and MPS Program On-Site Training: When new hardware is purchased at the time of MPS initiation, Contractor shall provide basic device training as determined during an on-boarding meeting. As devices are installed and configured, Contractor account associates will conduct an informal walk-around training. This training shall cover the key features and benefits as well as performance capabilities of new devices including basic printing, fax, and scanner features, as applicable.

On-Going MPS Program Training: Contractor shall offer additional types of training programs and will work with each contracted Client Agency to determine the best way to deliver. Contractor shall also support a series of Webinars for Client Agency on the new MPS program. Contractor will also work with each Client Agency to ensure a share folder is available for end users where key collaterals associated with the program will be uploaded for end users to access at any time.

(K) Change Management Plan

Contractors Change Management Plan is based on a three-part strategy: Optimize your Infrastructure; Manage your Environment, and Improve your Workflows.

Phase 1 - Observe and Analyze: Strategy workshops bring together cross-functional groups from within organizations (both executive and operational) to gain consensus and begin to map out a strategy for transforming each environment. A time line is built out and designed to deliver business value each step of the way.

Technology workshops focus on topics relevant to their needs, from issue-specific topics like security workshops and product-specific workshops. Industry workshops provide a forum for Contractor to share imaging and printing trends and lead active discussions around best practices and how to apply.

Phase 2 - Plan and Propose: Contractor and Using Agency finalize plans for imaging and printing transformation.

The Master Schedule will contain the itinerary for the roll out of each new environment and spells out expectations for location-specific deployments. It also sets the stage for the management of-change process, which includes securing active executive sponsorship and user buy-in.

Phase 3 - Deploy and Transition: During Phase 3, Change Management plans are put into action. Plans include workflow solutions with Contractor being the point of accountability for successful implementation and execution.

DESCRIPTION OF GOODS & SERVICES AND ADDITIONAL TERMS & CONDITIONS

Phase 3 also includes Governance. Governance describes the overall operating model between State of Connecticut Customers and NWN. It includes the creation of a program/project management office (PMO), assigns resources, identifies roles and responsibilities, and supports the joint decision making approach.

Phase 4 - Manage and Innovate: Contractor's Account Executive (AE) provides a single point of accountability for ongoing improvements. Along with Contractor's Operations Executive oversee ongoing operations, monitors environment's performance and analyzes data for trends or issues.

(L) Description of Document Capture Services and Workflow Process

Product scan solutions enable the following:

1. Capture
2. Store
3. Manage
4. Distribute

Scan to File / Folder: The Scan to File / Network Folder feature allows users to save a scanned image to a shared network folder directly from the control panel.

This functionality is also the onramp to additional Document Management workflow solutions that the State of Connecticut agencies may require.

Scan to eMail: The Scan to eMail function allows users to scan to one or multiple emails from the control panel.

HP Pull Printing: Helps protect sensitive documents and secure printing environments—all while increasing convenience for local, mobile, and remote users. Reduce the amount of unclaimed print jobs and control access to networked devices. Give users the ability to retrieve jobs when and where they need to by simply accessing a solution-enabled networked device.

(M) Security Services Plan

Contractor shall provide each Using Agency with its own specialized security support technicians to implement corporate print security plans. Contractor's products are equipped with industry-leading security features.

Device Hard Drive Security Procedures as Defined in US Dept. of Defense (DoD) 5220.22-M: To meet the needs for higher levels of Print and Imaging security, Hewlett-Packard has implemented a security feature in which print jobs can be securely erased from the hard disk drive. This is the secure disk erase feature provided as a standard feature on supported Designjet printers. The secure disk erase feature provides a choice of three different levels of disk security, which are configurable by an administrator and may be protected from unauthorized changes with a password.

DESCRIPTION OF GOODS & SERVICES AND ADDITIONAL TERMS & CONDITIONS

1. **Sanitized Erase:** Conforms to the DoD 5220-22.M specification for deletion of magnetically stored data. Using multiple data writes to eliminate trace magnetic data, Sanitized Erase prevents subsequent analysis of the hard disk drive's physical platters for the retrieval of data.
2. **Secure Erase:** Provides increased performance, overwriting the existing data once, and preventing software-based "undelete" operations to the data.
3. **Fast Erase:** Provides the greatest performance, flagging the print job as deleted, and allowing the MFP's operating system to reclaim and subsequently overwrite the data when needed.

(N) Helpdesk/Customer Service Plan

Helpdesk/Customer Service: Service request lines shall be open Monday through Friday, 6:00 a.m. to 6:00 p.m. MST. Lines will be immediately connected to a person, not a phone tree. The dispatcher answering the phone shall ask for the employee's name, Using Agency, printer identification number (found on the printer sticker), and a brief description of the reason for the call. The dispatcher shall confirm the data in our system and create a service call.

Contractor shall work with each Client Agency to determine the most appropriate levels of service to best meet agency needs.
