

SUPREME PERFORMANCE, ROCK-SOLID DURABILITY

AIRDYNEX™

With a long heritage of innovation and performance, the AirDyne bike is a classic workhorse that has delivered superior cardio workouts for decades, making it one of the most popular traditional fitness machines in history. And now, this breakthrough fan technology has been precisely refined for greater challenge and customized intensity for today's exercisers.

This ultra-durable gym mainstay withstands the toughest sweat sessions on cardio floors, in small group training, in functional training workouts and at specialty fitness studios.

OCTANE ADVANTAGES

- 26-blade performance fan
- Performance drive system
- Single-stage belt for instant activation
- Smooth motion
- HIIT training
- Commercial durability
- Calibration technology
- Moisture-repellent, double-coated steel body construction
- Biomechanically correct positioning
- Cordless operation

INHERENT SUPERIORITY

It's simple to see why the AirDyne bike is superior. With its custom-designed, 26-blade performance fan and single-stage belt drive, the AirDyne responds to an exerciser's power, and helps to reduce wasted energy for more efficient, effective workouts.

BURN MORE CALORIES

Exercisers burn more calories on the AirdyneX compared to a leading competitor fan bike at the same RPM*. The custom designed performance fan enables them to generate more watt power efficiently. That means greater motivation and results.

*Engineering internal study versus a leading competitor fan bike at the same RPM. Individual results will vary.

CONSOLE

The addictive tachometer visually signals how hard exercisers are working and shows the average calorie burn per minute – making it an excellent motivator for them to bury the needle! The calibration technology produces accurate and consistent results from bike to bike, making it ideal for challenges and competitions.

Plus, the digital display simultaneously provides essential stats -- heart rate, RPM, distance, watts and total calories.

UPPER BODY

The cushioned MultiGrip handlebars let exercisers choose from horizontal or vertical placement options to target different muscles and add variety. Or isolate the upper body using the stationary anti-slip foot pegs with triple-sided grip pads for traction.

FITNESS

FUEL YOUR LIFE

Octane
FITNESS

THE COMPANY

HOW DO WE BUILD THE BEST ZERO-IMPACT TRAINING EQUIPMENT?

Being the best takes relentless hard work, commitment and focus. At Octane Fitness, we are defined by our persistent hunger to innovate. By continual breakthroughs that revolutionize zero-impact training and create new ways to exercise. By our resolute unwillingness to settle. Ever. And by our passion to excel in everything products, sales, service and reputation.

Our perseverance yields an ever-growing variety of unique machines, an endless list of Best Buy awards and top rankings, clubs worldwide that demand our products and lives that are continually fueled.

On a dedicated mission to reinvent zero-impact exercise, only Octane equips health clubs with premium, progressive standing, seated, lateral and incline ellipticals, along with the unmatched Zero Runner. Designed to deliver results with valuable features and innovative programming, such as HIIT training and CROSS CiRCUIT, these heavy-duty machines inspire motivation, resolve and satisfaction with long-lasting, reliable performance.

ZERO RUNNER®

Experience running reinvented with the unprecedented Zero Runner, which replicates natural running motion but eliminates repetitive impact so users can comfortably walk, jog or run without stressful pounding on their bodies.

P. 6

Octane
FITNESS

ELLIPTICAL DOMINATION

FIVE CATEGORIES OF ELLIPTICALS PROVEN TO FUEL YOUR MEMBERS AND YOUR CLUB

INCLINE ELLIPTICALS

Take on the neXT generation of ellipticals with one machine that does it all. The versatile XT-One equips exercisers to walk, run, hike or climb – all within one machine – for multiple challenges and superior conditioning – combined with custom consoles for interactive workouts and engaging entertainment.

P. 8

LATERAL ELLIPTICALS

Move in an entirely new direction with this ingenious way to workout, which combines smooth, 3-D motion that goes from a vertical elliptical stepping motion to an active side-to-side motion for functional exercise that challenges more muscles for more results.

P. 10

STANDING ELLIPTICALS

It's no surprise that these ellipticals are preferred by 75% of health club members. Perfected over time with biomechanics, natural motion, a slew of motivating workouts and plenty of thoughtful comfort features, these premium ellipticals fuel every fitness floor.

P. 12

RECUMBENT ELLIPTICALS

This innovative platform combines all the benefits of traditional standing elliptical exercise with the comfort of a seat – plus exclusive PowerStroke™ technology and resistance training to engage more muscles, burn more calories and accomplish way more than other recumbent machines.

P. 16

THE TRAINING

KEEPING YOU FUELED

Training – we'll conduct in-depth training with your staff on-site during installation and provide ongoing support with a top-notch customer service tech team that is available 11 hours a day.

Resolve Issues Quickly – Should you need on-site assistance, our technicians will be there at a moment's notice of your request to get your equipment back up and running in no time.

Broad Network – We are committed to keeping your facility fueled and rely on a broad network of trained service providers worldwide so we can be there quickly and efficiently.

Octane
FITNESS

THE RESULTS

YOUR MEMBERS FEEL AND SEE THE DIFFERENCE

Let's face it – if your members aren't satisfied, your club won't thrive. Octane ellipticals help drive your business daily by enticing potential members, motivating current members and keeping everyone coming back for more. What's not to love?

75% of health club members
rate it superior

No need to take our word for it – surveys of health club members show that Octane is the top elliptical choice, with 75% rating Octane workouts as superior. In fact, more than 95% of members said that they wanted Octane ellipticals at their facility. They consistently praise the overall natural feel; intuitive, customizable motion; and upper-body comfort and variety.

Seize this critical success factor
to reap maximum ROI.

95% of health club members
want Octane in their clubs

THE ZERO RUNNER

FINALLY, THE TREADMILL
HAS BEEN TRANSFORMED

ZR8000

Finally, the treadmill has been transformed. The Zero Runner offers the same great workout, but without the additional cost of ownership. Built with cutting-edge innovation, and without a belt, deck or cord. The Zero Runner eliminates the pain of running and equipment maintenance. Fuel your cardio floor like never before.

OCTANE ADVANTAGES

- Zero-Impact Running™
- True running motion
- Walk, jog or run
- Up to 58" stride length
- Customized to users stride
- CROSS CIRCUIT compatible

REAL RUNNING MOTION

Independent hip and knee joints replicate natural walking, jogging or running motion without any stressful impact, and custom-fit users of different sizes.

STRIDE TRACING

Unique technology enables users to monitor the health of their stride and adjust form to correct imbalances throughout workouts for greater consistency and performance.

LOWER COST OF OWNERSHIP

With no belt, deck or power cord*, the Zero Runner has significantly lower maintenance and electricity needs than treadmills and no wear-and-tear parts to replace.

FLEXIBLE PLACEMENT

Shorter than a treadmill, self-powered* and with whisper-quiet operation, the Zero Runner affords valuable flexibility.

THE XT-ONE

THE ONE CROSS-TRAINER
THAT DOES IT ALL

XTOne™

XT-0ne

The XT-One, the all-in-one machine that lets members **walk, run, hike** or **climb** to target different muscles for customized effectiveness.

OCTANE ADVANTAGES

- Replaces all adaptations of ellipticals and non-elliptical modalities in one machine
- Adjustable incline
- Adjustable stride length
- Advanced training – 30:30 and MMA
- CROSS CIRCUIT compatible
- Workout Boosters

WALK

The biomechanically precise motion of the XT-One delivers a low-impact, comfortable walk, with a choice of shorter or longer strides to custom-fit exercisers with different leg lengths.

RUN

Users can change pace or stride length to customize their run motion. Or they can take advantage of Octane's trademark SmartStride® interactive ergonomics, which replicate jogging or running by automatically adjusting the stride length from 20"-28" based on the user's pace.

HIKE

Hit the hills and boost cardiovascular and muscular endurance by selecting from 10 incline levels that target the legs and work the upper body and core. Users can opt for greater challenges with several incline workouts, including Hill Interval and Progressive Hill.

CLIMB

The ultimate challenge with a steep climb that strengthens the quads, glutes and hamstrings with deep strides and high-intensity cardio and strength work.

THE LATERAL X

MOVE IN A NEW DIRECTION

LATERAL X
MOVE IN A NEW DIRECTION

Lateral X

Add a new dimension and excitement to the cardio floor with the Lateral X elliptical that delivers functional challenges, more muscle demands and greater caloric burn.

OCTANE ADVANTAGES

- Adjustable lateral 3-D motion
- 27% increase in caloric expenditure*
- 30% increase in hip abductor/adductor activity*
- Adds muscle confusion with 10 varying planes of motion
- Great for sports, rehab and stability training, working the hips, thighs and glutes
- CROSS CIRCUIT compatible

LATERAL MOTION

Active side-to-side motion that increases caloric expenditure by 27% and engages more lower body muscles.

STEPPING MOTION

An additional movement option that simulates a stepping movement for added variety or recovery.

UPPER-BODY ERGONOMICS

Patented, one-of-the-kind MultiGrip and Converging Path handlebars better engage the upper body and assist with fitting every exerciser better.

CROSS CIRCUIT

Exercisers get better results from greater conditioning and motivation, and clubs and trainers benefit from a powerful new revenue source.

THE XT4700

A STRIDE AHEAD

XT4700

The best elliptical machine available, this top-of-the-line powerhouse is loaded with exclusive Octane breakthroughs including SmartStride® to fuel every workout with exceptional comfort and challenge that drive valuable results.

OCTANE ADVANTAGES

- Electronically adjustable stride
- MultiGrip & Converging Path handlebars
- Biomechanically correct close pedal spacing
- Low step-up height
- Advanced training — 30:30 and MMA
- CROSS CIRCUIT compatible

SMARTSTRIDE®

An unmatched feature that automatically adjusts stride length to replicate walking, jogging, running and moving backwards.

UPPER-BODY ERGONOMICS

Patented, one-of-the-kind MultiGrip and Converging Path handlebars that better engage the upper body and custom fit every exerciser.

REAL RUNNING MOTION

Delivers supremely comfortable natural movement and flow, both forward and backward, without stress on the joints.

SPACE-EFFICIENT DESIGN

Significantly shorter than other ellipticals or treadmills; fits conveniently in small spaces.

THE xR6000

CHANGING HOW YOU FEEL
ABOUT RECUMBENT WORKOUTS

xRide

xR6000

Satisfy the demand for comfort, challenge and variety on the cardio floor with the unique xRide recumbent elliptical, delivering incredible effectiveness to everyone from beginners to athletes.

OCTANE ADVANTAGES

- 343% more glute activity*
- Burn 23% more calories*
- Active Seat Position™
- Challenging upper-body workout
- Step-through design

POWERSTROKE™

Facilitates optimal leg extension and power drive. Users burn 23% more calories and activate 3x more muscles than a recumbent bike.*

CUSTOMIZED COMFORT

The Active Seat Position™ accommodates different size exercisers, by offering more tilt and height adjustments for the perfect fit to maximize comfort and variety.

CHEST & LEG PRESS

Exercisers combine cardio and strength training efficiently with vigorous interval repetitions at high intensity.

HIIT TRAINING

Users can select advanced HIIT workout programs or activate Workout Boosters to incorporate interval training into any program.

CONSOLE OPTIONS

SMART CONSOLE

WEB APPS

Now users can quickly access their favorites, Facebook, Twitter, YouTube and more, enabling them to efficiently multi-task, stay engaged and resolve to finish their workout strong – or even add a few more minutes for better results.

WEB BROWSING

With the Web at one's fingertips, exercisers can enjoy streaming video, shopping, browsing the Internet or checking email for the ultimate in time management and versatile, custom entertainment.

ASSET MANAGEMENT

Provided by EcoFit™ Networks, Octane's asset management measures and shares valuable data from cardiovascular equipment that club owners can analyze to ensure proper equipment placement, equal usage, timely preventive maintenance and minimal downtime with service needs.

INTERACTIVE COACHING

Octane's trademark CROSS CiRCUIT combined cardio and strength training program comes alive with videos that show proper execution of hundreds of strength training exercises. Plus, the Workout Boosters now include video demos that keep exercisers engaged and using correct form.

STANDARD CONSOLE

STANDARD CONSOLE

Intuitive to navigate, this LED display with integrated capacitive buttons showcases all workout feedback and supports mobile device charging. Quick Start buttons enable exercisers to immediately begin their workout; and advanced training is convenient, with buttons for CROSS CiRCUIT, MMA and 30:30 directly on the console.

Console options are for
Zero Runner, XT-One, LateralX,
XT4700, XT3700 and xR6000.

THE CROSSCIRCUIT

BUILD A BETTER WORKOUT

Kick start your members' motivation and generate a big buzz on the gym floor with Octane's exclusive new CROSS CiRCUIT, which adds tremendous energy and interest – along with efficiency and results – to individual, small group or class workouts.

OCTANE ADVANTAGES

- Strength and cardio training in one location
- Faster results
- Generate revenue on the cardio floor
- Boost personal training revenue
- Solo video coaching*
- Compatible ellipticals:
 - Zero Runner
 - XT-One
 - LateralX
 - XT4700/XT3700
 - Pro3700Classic

GROUP TRAINING

Uniquely combines strength and cardio intervals for individual workouts, or instructor-led one-on-one, small group or class sessions.

SIDE STEPS

Users take their legs out of the action and emphasize their chest, back, shoulders and arms for greater workout variety.

POWERBLOCK® DUMBBELLS

Eight dumbbells combined into one. PowerBlock dumbbells are adjustable, which allows more versatility, and progression options are limitless.

HIIT TRAINING

Easily add HIIT training to the cardio floor.

The CROSS CiRCUIT Advantage

- Turns your fitness floor into a revenue-producing training area
- Visual prompts from the console, weight stands, side steps and PowerBlocks combined create the ultimate, full-body workout
- PowerBlocks are available in 32 lbs or 50 lbs options for the utmost flexibility for all fitness levels
- Customized training templates are available to help kick start your club's program

The Group Program

In the group program, a personal trainer or instructor leads one or several exercisers through regimens that alternate between cardio work on the machine, and up to three minutes of strength training either on the stationary foot platforms or on the floor adjacent to the elliptical.

Trainers determine the duration of the cardio and the strength cycles, as well as the exercises. During the strength sets, the elliptical tracks time and an estimated caloric expenditure, affording full credit for the challenging work on the floor.

Strength periods have an endless variety of traditional and functional movements using accessories including the PowerBlock dumbbells, resistance tubing, barbells, stability balls, BOSU™ Balance Trainers, balance boards, medicine balls and gliding disks, or body weight exercises such as squats, lunges and push-ups. The opportunities with CROSS CiRCUIT are virtually unlimited, based on the creativity of instructors and exercisers.

The Solo Routine

The solo routine enables exercisers to personally select the cardio interval time, and the machine prompts them to exit the machine for a time-based interval session, and then return to cardio. The smart console features video coaching that shows proper form and provides strength ideas to the user.

THE PRO310

SMALL FOOTPRINT, BIG VALUE

PRO310

Great features and programs you expect from Octane in a space-efficient package for quiet, safe operation.

OCTANE ADVANTAGES

- Space-saving design
- Low step-up height
- MultiGrip & Converging Path handlebars
- Biomechanically correct pedal spacing
- Advanced training – 30:30
- Workout Boosters

UPPER-BODY ERGONOMICS

Patented, one-of-the-kind MultiGrip and Converging Path handlebars that better engage the upper body and custom fit every exerciser.

30:30 INTERVAL

An exclusive ability to train like the pros with the 30:30 Interval challenge program from EXOS.

REAL RUNNING MOTION

Delivers supremely comfortable natural movement and flow, both forward and backward, without stress on the joints.

ARMBLASTER

For an unrivaled total-body experience, this trademark workout combines cardio with intense upper-body strength intervals.

THE xR650

INCREDIBLE OCTANE
INNOVATION AT A VALUE

xRide

xR650

The latest in the exciting evolution of Octane's unprecedented xRide recumbent ellipticals, the xR650 offers the high quality and innovative features that define Octane. All at an exceptional value.

OCTANE ADVANTAGES

- Active Seat Position™
- PowerStroke™ elliptical pedal motion
- 343% more glute activity than recumbent bike*
- Step-through design
- Advanced training - 30:30

POWERSTROKE™

This longer elliptical motion engages more muscles for greater caloric expenditure, 343% more glute activity compared to a recumbent bike* and better overall results.

CUSTOMIZED COMFORT

The Active Seat Position™ accommodates different size exercisers, by offering more tilt and height adjustments for the perfect fit to maximize comfort and variety.

CHEST & LEG PRESS

Exercisers combine cardio and strength training efficiently with vigorous interval repetitions at high intensity.

VARIETY

Build motivation and enhance retention with interactive heart rate workouts, interval training and customized programs.

ADVANCED TRAINING

MIXED MARTIAL ARTS (MMA)

Punch Up the Intensity. Program Mimics Real-Life Bouts.

Mimics real-life MMA bouts and gives participants an effective training routine like a fighter in the ring. With built-in flexibility to meet each fighter's unique needs, the Octane MMA program challenges and motivates as the machine "fights back." Fight-inspired prompts such as "punch and move" and "throw it" make the sessions fun, and the built-in responsive resistance feels like the real thing – a battle of strength and power.

THE 30:30 WORKOUT

Motivates and Challenges. Improves Heart Rate Recovery Fitness.

The 30:30 program is an innovative workout program available exclusively on Octane Fitness elliptical machines.

It motivates and challenges exercisers of all abilities. Designed by Paul Robbins of Athletes' Performance, Inc., the 30:30 Interval program increases cardiovascular performance of everyone from elite athletes to beginning exercisers.

The 30:30 program also works as a fitness measurement tool; the faster the heart rate recovery, the greater the fitness level. Tracking improvements in heart rate recovery is a key factor in measuring overall fitness condition.

SCHWINN

AirDyne

New Technology Delivers Totally New Spin on Classic Schwinn® AirDyne® Pro Bike

AirDyne Pro Bike

With a long heritage of innovation and performance, the Schwinn AirDyne bike is a classic workhorse that has delivered superior cardio workouts for decades, making it one of the most popular traditional fitness machines in history. And now, this breakthrough fan technology has been precisely refined for greater challenge and customized intensity for today's exercisers. This ultra-durable gym mainstay withstands the toughest sweat sessions on cardio floors, in small group training, in functional training workouts and at specialty fitness studios.

ADVANTAGES

- 26-blade performance fan
- Performance drive system
- Single-stage belt for instant activation
- Smooth motion
- HIIT training
- Calibration technology
- Moisture-repellent, double-coated steel body construction
- Biomechanically correct positioning
- Cordless operation

INHERENT SUPERIORITY

It's simple to see why the AirDyne Pro bike is superior. With its custom-designed, 26-blade performance fan and single-stage belt drive, the AirDyne Pro bike responds to an exerciser's power, and helps to reduce wasted energy for more efficient, effective workouts.

BURN MORE CALORIES

Exercisers burn more calories on the AirDyne Pro bike compared to a leading competitor fan bike at the same RPM*. The custom designed performance fan enables them to generate more watt power efficiently. **That means greater motivation and results.**

*Engineering internal study versus a leading competitor fan bike at the same RPM. Individual results will vary.

CONSOLE

The addictive tachometer visually signals how hard exercisers are working and shows the average calorie burn per minute – making it an excellent motivator for them to bury the needle! The calibration technology produces accurate and consistent results from bike to bike, making it ideal for challenges and competitions.

Plus, the digital display simultaneously provides essential stats – heart rate, RPM, distance, watts and total calories.

UPPER-BODY

The cushioned MultiGrip handlebars let exercisers choose from horizontal or vertical placement options to target different muscles and add variety; or isolate the upper body using the stationary anti-slip foot pegs with triple-sided grip pads for traction.

FITNESS

xR6000s

FUELING THE MOST COMFORTABLE AND EFFECTIVE RECUMBENT WORKOUTS

Offer comfortable challenges and variety in workouts with the unique xRide® recumbent elliptical, which delivers incredible effectiveness to exercisers of different ages and fitness levels.

OCTANE ADVANTAGES

- 210-degree swivel seat
- Side platforms
- Upper/lower-body isolation
- Active Seat Position™
- Step-through design
- Simple start-up

POWERSTROKE™

Facilitates leg extension to engage more muscles, burn calories and help achieve optimal results from a seated position.

SWIVEL SEAT

To maximize ease of entry and exit, the swivel seat turns +/- 210 degrees to comfortably accommodate exercisers.

CUSTOMIZED COMFORT

The Active Seat Position is designed for different size exercisers by offering multiple tilt and height adjustments for the perfect fit and superior comfort.

UPPER AND LOWER-BODY ISOLATION

Users can complete total-body workouts, or exclusively target their upper or lower body during intervals for variety.

SMART CONSOLE

STANDARD CONSOLE

PERSONAL VIEWING SCREEN

ZERO RUNNER

SMARTER THAN A TREADMILL

ZR7000

The new Zero Runner ZR7000 replicates real walking, jogging and running motion but without any stressful impact to the body. A true, non-impact alternative to a treadmill, the Zero Runner uses independent hip and knee joints to mimic human biomechanics without a fixed stride, so exercisers can walk with a shorter stride or run with strides up to 58". Using the same muscles as running, the Zero Runner enables virtually everyone to run without impact.

OCTANE ADVANTAGES

- Zero-Impact Running™
- True running motion
- Walk, jog or run
- Up to 58" stride length
- Customized to users stride
- Lower cost of ownership
- Quiet operation
- Shorter than a treadmill
- Smart or standard console
- CROSS CIRCUIT® compatible

ZERO RUNNER

By reducing the repetitive impact, the Zero Runner enables users to optimize their form, engage the core and concentrate on activating the hamstrings and glutes. Users can choose to walk with shorter strides, or vary their stride and pace throughout the workout to jog or run, just like outside.

Plus, with live stride tracing*, the Zero Runner enables users to perfect their stride to become more efficient and consistent in their form for better performance.

**smart console only*

TREADMILLS

Exercising on a treadmill continues to pound the body and places significant pressure on the joints with every stride. Plus, running on a treadmill with a moving belt doesn't match running outdoors.

Many runners experience that they do not sufficiently engage the hamstrings and glutes, and their form changes to accommodate the belt.
